EPA received a petition from the Petitioners dated November 19, 2010, requesting that EPA object to the issuance of the Title V operating permit to Public Service Company of New Mexico, for the operation of the San Juan Generating Station in San Juan County, New Mexico, for the following reasons: (1) Fails to ensure compliance with the Prevention of Significant Deterioration requirements; (2) fails to ensure compliance with source impact analysis requirements in the New Mexico State Implementation Plan; (3) fails to require prompt reporting of deviations; (4) fails to require sufficient periodic monitoring; and (5) includes a condition that is contrary to applicable requirements.

On February 15, 2012, the Administrator issued an order granting in part and denying in part the petition. The order explains the reasons behind EPA’s conclusion to grant in part and deny in part the petition.
