The applicant is requesting authorization to film spinner dolphins near Midway Atoll in the Pacific Ocean. Filming techniques include above water from a vessel, a pole-mounted underwater camera, and a waterproof camera used by a snorkeling cameraman. Up to 1,300 dolphins could be approached annually during filming activities. Footage would be used primarily for a television documentary about Hawaiian wildlife that would be aired on Animal Planet in the U.S. and elsewhere internationally. The initial filming period is scheduled for two weeks in June/July 2012. The permit would be valid for five years.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial

determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.
