

2028B respondents. From these sample STL data, estimates of the terms of business loans and farm loans extended during the reporting week are constructed. The aggregate estimates for business loans are published in the quarterly E.2 release, *Survey of Terms of Business Lending*, and aggregate estimates for farm loans are published in the E.15 release, *Agricultural Finance Databook*.

Current Actions: On October 13, 2011, the Federal Reserve published a notice in the **Federal Register** (76 FR 63619) requesting public comment for 60 days on the extension, with revision, of the FR 2028ABS. The comment period for this notice expired on December 12, 2011. The Federal Reserve received one comment letter on the proposed revisions from a banking association. The commenter did not support the addition of a column to collect the Research Statistics Supervision Discount (RSSD) ID of the branch that originated each loan nor a column for the loan origination fee. The commenter stated that the data are not readily available and questioned how the data to be reported in the column for the RSSD ID would be used. The commenter also suggested deferring the implementation date of any changes until after the May 2012 survey week. After receiving this comment letter, in February 2012, the Federal Reserve consulted with several members of the banking association about the comments and discussed possible alternatives to the original proposal. After considering these alternatives, the Federal Reserve decided to modify the proposal by (1) replacing the proposed column to collect the RSSD ID of the branch that originated each loan with the state where the borrower is headquartered, (2) removing the proposed column for the loan origination fee, and (3) deferring the implementation date to the August 2012 survey week; however, banks that need additional time to program the changes would be able to report the new items as not available until the February 2013 survey week.
