Background

Beginning December 17, 2008, the postal zip codes for TSA headquarters facilities in Virginia and Maryland changed to new zip codes that are unique to TSA to enhance the safety and security of incoming mail to the Department of Homeland Security (DHS) and its components. The physical locations of TSA's facilities, however, did not change. The new TSA zip code for Virginia addresses changed to 20598 and for Maryland addresses changed to 20588. TSA locations in Washington, DC continued to use their existing zip codes. In addition, the last four digits of the new zip code format (zip + 4) now represent an office's routing symbol.

Since 2008, through other rulemaking actions, TSA revised most sections of TSA regulations (chapter XII of title 49, Transportation, of the Code of Federal Regulations, parts 1500–1699) that contain TSA mailing addresses with outdated postal zip codes. The only remaining zip code that is out of date is § 1572.5(e)(2).

Technical Amendment

This document amends section 1572.5(e)(2) in order to make this editorial change to the zip code from “22202–4220” to “20598–6019”. TSA makes no other changes to the section.
