SUPPLEMENTARY INFORMATION:

I. Abstract

The U.S. Census Bureau is committed to conducting research towards a 2020 Census that costs less while maintaining high quality results. The Census Bureau plans to conduct a series of small-scale tests to research and evaluate how the use of automation can improve field data collection activities. These tests will explore how the Census Bureau can use automated processes to improve efficiency, improve data quality, and reduce respondent burden. Examples of census operations that might be included are: mapping and address listing; enumeration; and quality control checks.

This information collection will operate as a generic clearance. The estimated number of respondents and annual reporting hours requested cover both the known and yet to be determined tests. A generic clearance is needed for these tests because though each share similar methodology, the exact number of tests and the explicit details of each test to be performed has yet to be determined. The Census Bureau plans to conduct each test in small geographic areas. Once information collection plans are defined, they will be submitted on an individual basis in order to keep OMB informed as these tests progress.

The Census Bureau plans to test the use of mobile computing devices and applications in field data collection tasks. Field data collection tasks can include: Address listing and mapping, enumeration functions (including the administration of a questionnaire, scheduling of visits, collecting housing unit status, and adding new households); and quality control functions for both listing and enumeration.

Address Listing and Mapping Tasks

The scope of these tests will research using a mobile computing device and applications to: Create, add, delete, and correct an address list; load work assignments; measure production, record GPS coordinates; transmit and download data; and use geographic information obtained from other data sources. The overall goal of the tests is to improve accuracy and productivity in field activities while collecting the necessary data. Address and feature information will be primarily collected by observation. In cases where address or feature information is not observable or verifiable, a household or other knowledgeable respondent may be contacted to collect this information.

Enumeration Functions

The enumeration functions research will focus on using various applications and mobile computing devices to enumerate households and persons. The research and evaluation may include: developing an automated enumeration questionnaire, usability issues; conducting interviews; scheduling return visits; recording contact outcomes, recording the status of a housing unit (such as occupied or vacant); adding addresses; making work assignments; measuring production; ability to toggle to a Spanish instrument; enumerator routing; and transmission of data. To test enumeration functions, the Census Bureau may conduct the enumeration directly with a household

member or knowledgeable respondent. The Census Bureau has not yet determined the questions to ask households or knowledgeable respondents but will inform OMB as tests are developed.

Quality Control Functions

The quality control functions research is to test quality control functions and applications on different mobile computing devices for both listing and enumeration. The scope of the tests may include: revisiting areas and households to verify information collected in previous operations; correcting and adding map features, addresses, and households; apply pass/fail requirements; and to use and record map spots in GPS and manual modes. The Census Bureau has not yet determined the questions to ask households or knowledgeable respondents to test quality control functions but will inform OMB as tests are developed.

II. Method of Collection

The information will be collected on mobile computing devices through observations, face-face interviews, and/or telephone interviews.

III. Data

OMB Control Number: None.
Form Number: Not yet determined.
Type of Review: Regular submission.
Affected Public: Individuals or households.

Estimated Number of Respondents: 13,000 total.

Estimated Time per Response: 10 minutes.

Estimated Total Annual Burden Hours: 723 hours annual average, total estimate of 2,167.

Estimated Total Annual Cost: There is no cost to the respondent other than time to answer the information request.

Respondents Obligation: Mandatory.
Legal Authority: Title 13 U.S.C. Sections 141 and 193.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques

or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: March 23, 2012.

Glenna Mickelson,

Management Analyst, Office of the Chief Information Officer.

[Application No. 97-11A003]

Export Trade Certificate of Review

ACTION: Notice of Issuance of Application No. 97-11A003 of an Amended Export Trade Certificate to the Association for the Administration of Rice Quotas, Inc.

SUMMARY: The U.S. Department of Commerce issued an amended Export Trade Certificate of Review to the Association for the Administration of Rice Quotas, Inc., (“AARQ”) on December 16, 2011. The previous amendment was issued to AARQ on March 11, 2010 and published in the **Federal Register** on March 26, 2010 (75 FR 14567). This is the eleventh amendment to the Certificate. The Association for the Administration of Rice Quotas, Inc. (“AARQ”) original Certificate was issued on January 21, 1998 (63 FR 31738, June 10, 1998).

FOR FURTHER INFORMATION CONTACT: Joseph Flynn, Director, Office of Competition and Economic Analysis, International Trade Administration, (202) 482-5131 (this is not a toll-free number) or email at etca@trade.gov.

SUPPLEMENTARY INFORMATION: Title III of the Export Trading Company Act of 1982 (15 U.S.C. 4001-21) authorizes the Secretary of Commerce to issue Export Trade Certificates of Review.

The U.S. Department of Commerce, International Trade Administration, Office of Competition and Economic Analysis (“OCEA”) is issuing this notice pursuant to 15 CFR 325.6(b), which requires the Secretary of Commerce to publish a summary of the issuance in the **Federal Register**. Under Section 305(a) of the Export Trading Company Act (15 U.S.C. 4012(b)(1)) and 15 CFR 325.11(a), any person aggrieved by the Secretary’s determination may, within 30 days of the date of this notice, bring

an action in any appropriate district court of the United States to set aside the determination on the ground that the determination is erroneous.

Description of Amended Certificate

AARQ’s Export Trade Certificate of Review has been amended to update the list of Members and to reflect changes in ownership, corporate structures, names and locations:

1. “American Rice, Inc., Houston, Texas (a subsidiary of SOS Corporation Alimentaria, SA)” was amended to read “American Rice, Inc., Houston, Texas (a subsidiary of Ebro Foods, S.A. (Spain))”.
