Lifeline and Link Up Reform and Modernization, Advancing Broadband Availability Through Digital Literacy Training

AGENCY: Federal Communications Commission.

ACTION: Final rule; correction.

SUMMARY: This document corrects errors in the DATES section of a Federal Register document (77 FR 12952, March 2, 2012) regarding the Federal Communications Commission comprehensively reforming and beginning to modernize the Universal Service Fund’s Lifeline program. The reforms adopted will substantially strengthen protections against waste, fraud, and abuse; improve program administration and accountability; improve enrollment and consumer disclosures; initiate modernization of the program for broadband; and constrain the growth of the program in order to reduce the burden on all who contribute to the Universal Service Fund. This document also contains corrections to the paragraph numbering of final rule regulations in part 54.
