SUPPLEMENTARY INFORMATION:

I. Abstract

As part of its national service delivery system, MBDA awards cooperative agreements each year to fund the provision of business development services to eligible minority business enterprises (MBEs). The recipient of each cooperative agreement is competitively selected to operate one of the following business center programs: (1) An MBDA Business Center or (2) a Native American Business Enterprise Center (NABEC). In accordance with the Government Performance Results Act (GPRA), MBDA requires all center operators to report basic client information, service activities and progress on attainment of program goals via the Online CRM/Performance Databases. The data collected through the Online CRM/Performance Databases is used to regularly monitor and evaluate the progress of MBDA’s funded centers, to provide the Department and OMB with a summary of the quantitative information that it requires about government supported programs, and to implement the GPRA. This information is also summarized and included in the MBDA Annual Performance Report, which is made available to the public.

Additionally, NABEC program award recipients are required to list MBEs to conduct business in the United States in the Online Phoenix Database. This listing is used to match those registered MBEs with opportunities entered in the Online Opportunity Database by public and private sector entities. The MBEs may also self-register via the Online Phoenix Database for notification of potential business opportunities.

Revision: In Fiscal Year 2011 MBDA developed and implemented a new Customer Relationship Management/Performance Database to reflect the requirements of the redesigned MBDA Business Center program. The streamlining of certain administrative and reporting requirements for the new program are reflected in the system, and resulted in a decrease in the overall estimate of burden hours for users under the new program structure. The NABEC program will continue to utilize the original Performance, Phoenix and Opportunity databases until the program is redesigned, which is planned for completion during Fiscal Year 2012.
