Substances To Be Evaluated for Set 26 Toxicological Profiles

Each year, ATSDR develops a list of substances to be considered for toxicological profile development. The Set 26 nomination process includes consideration of all substances on the ATSDR’s Substance Priority List (SPL) as well as other substances nominated by the public. The 275 substances on the list will be considered for Set 26 Toxicological Profile development. This list may be found at the following Web site: www.atsdr.cdc.gov/SPL, and in the docket at www.regulations.gov.

Submission of Nominations for the evaluation of Set 26 Substances:

Today’s notice invites voluntary public nominations for substances included on the SPL and for substances not listed on the SPL. All nominations should include full name of the nominator, affiliation, and email address. When nominating a non-SPL substance, please include the rationale for the nomination. Please note, email addresses will not be posted on regulations.gov.

ATSDR will evaluate all data and information associated with nominated substances and will determine the final list of substances to be chosen for toxicological profile development. Substances will be chosen according to ATSDR’s specific guidelines for selection. These guidelines can be found in the Selection Criteria announced in the Federal Register on May 7, 1993 (58 FR 27286–27287). A hard copy of the Selection Criteria is available upon request or may be accessed at: http://www.atsdr.cdc.gov/toxprofiles/guidance/criteria_for_selecting_tp_support.pdf.

Please ensure that your comments are submitted within the specified nomination period. Nominations received after the closing date will be marked as late and may be considered only if time and resources permit.

Director, Office of Policy, Planning and Evaluation, National Center for Environmental Health/Agency for Toxic Substances and Disease Registry.

BILLING CODE 4163–70–P
The original 60-day comment period began on December 16, 2011 and pertained to the MLR Annual Reporting Form, and closed on February 14, 2012. On February 16, we published an amended PRA package with Notices to Consumers and reopened the public comment period until March 2, 2012 to accommodate comments on the amendments to the PRA package. We received a total of 15 public comments regarding the Annual Reporting Form and 11 public comments regarding the Notices to Consumers and Instructions for these notices. Most public comments addressed multiple issues. We have taken into consideration all the proposed suggestions and have made changes to the Annual Reporting Form and Instructions, as well as to the Notices to Consumers and Instructions. In addition, CMS is adjusting the estimated burden that correlates with the Rebate Notices and the MLR Information Notices.
