DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Notice of Revisions to FERC Online, eSubscription Service

Take notice that on March 30, 2012, the Federal Energy Regulatory Commission (Commission) will update its eSubscription service that provides email notification when documents are added to eLibrary in a subscribed-to docket. eSubscription is one of the Commission's "FERC Online" services available to users that have established an eRegistration account on www.ferc.gov.

Currently, when users eSubscribe to a docket or project number they are provided options to: (1) "Subscribe to open dockets only"; (2) "subscribe to

the docket only"; or (3) "subscribe to the root and all existing and new sub-dockets." To ensure that eSubscribers receive all of the email notifications relating to dockets they are subscribed to, the new release will only offer subscription to a docket or project number without the additional options mentioned above (e.g. options (1) and (2)). With this update, existing eSubscriptions will default to the root and all sub-dockets in subscribed-to dockets. eSubscribing to Commission Press Releases will not be affected by this update and will continue to be available for eSubscription.

Accordingly, this update will ensure that eSubscribers receive email notifications when various types of documents are added to a subscribe-to docket(s) in eLibrary, even if those documents are assigned new sub-dockets (e.g., requests for rehearing) or are filed in a "closed" docket.

For questions about eSubscription or assistance, please contact efiling@ferc.gov or call 202-502-8258.

Dated: March 28, 2012.

Kimberly D. Bose,
Secretary.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 9, 2011 (76 FR 26900), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2011-0245, which is available for public viewing either online at <http://www.regulations.gov>, or in person at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1927.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov>, as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other

information whose public disclosure is restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: NESHAP for Inorganic Arsenic Emissions from Glass Manufacturing Plants (Renewal)

ICR Numbers: EPA ICR Number 1081.10, OMB Control Number 2060-0043.

ICR Status: This ICR is scheduled to expire on May 31, 2012. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Inorganic Arsenic Emissions from Glass Manufacturing Plants were proposed on July 20, 1983, and promulgated on August 4, 1986. The standards were amended on both May 31, 1990 and October 17, 2000. These standards apply to each glass melting furnace that uses commercial arsenic as a raw material. The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 61, subpart A, and any changes, or additions to the General Provisions specified at 40 CFR part 61, subpart N.

Owners or operators of the affected facilities must submit initial notification, performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 61, subpart N, as authorized in section 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Numbers for the EPA regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 49 hours per

response. "Burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: owners or operators of inorganic arsenic emissions from glass manufacturing plants.

Estimated Number of Respondents: 16.

Frequency of Response: Initially, occasionally, annually, and semiannually.

Estimated Total Annual Hour Burden: 3,080.

Estimated Total Annual Cost: \$351,094, which is comprised of \$295,094 in labor costs, \$56,000 in Operations & Maintenance (O&M) costs, and no annualized capital/start-up costs.

Changes in the Estimates: There is a decrease in the labor hours to the respondents in this ICR compared to the previous ICR. This is due to a calculation error in the burden estimate for the previous ICR.

There is an increase in the total respondent and Agency costs as currently identified in the OMB Inventory of approved Burdens. This increase is not due to any program changes. The change in cost estimated reflects updated labor rates available from the Bureau of Labor Statistics.

John Moses,

Director, Collection Strategies Division.
