A license, and the corresponding licensing agreement, may cover multiple locations under one license, subject the approval of the FSA Deputy Administrator for Commodity Operations (DACO).

**Annual User Fees**

Annual user fees are assessed based on the cost for site visits to conduct warehouse examinations to determine continued compliance with the terms of the licensing agreement and the USWA. Annual user fees will be assessed independently of application fees and inspection fees. The annual user fee will be \$1500 for 1 to 3 locations, plus \$300 for each additional location operated under the same licensing agreement.

**Inspection Fees**

Inspection fees are assessed to recover the costs of administering the USWA. The inspection fees are assessed for site visits to determine initial suitability for storage of EFAC. Fees will be assessed for each original examination or inspection and for amendment examinations to modify an existing license. The inspection fee will be \$1000 for 1 to 3 locations, plus \$300 for each additional location operated under the same licensing agreement. Fees for additional or special examination services, including requested examinations or examinations due to adverse conditions, will be assessed at an hourly rate as determined by FSA.

USWA fees for EFAC are provided in the following table:

**CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD**

**Meetings; Sunshine Act**

The U.S. Chemical Safety and Hazard Investigation Board (CSB) announces that it will hold a public meeting on April 19, 2012, in Buffalo, New York, to present the findings from its investigation of a flammable vapor explosion on November 9, 2010, at the E.I DuPont de Nemours and Co. Inc. chemical plant in Buffalo, New York. The incident involved a contract welder and foreman who were repairing an agitator support atop an atmospheric storage tank containing flammable vinyl fluoride (VF). The VF vapor from interconnected, in-service process tanks flowed undetected into the tank and ignited when the welder was repairing the agitator support assembly. The welder died instantly and the foreman was burned.

The meeting will begin at 6 p.m. at the Embassy Suites Buffalo Downtown, Room: Encore I, II, and III, 200 Delaware Ave., Buffalo, NY 14202 (716–842–1000). The meeting is free and open to the public. Pre-registration is not required, but to assure adequate seating, attendees are encouraged to pre-register by emailing their names and affiliations to [publicmeeting@csb.gov](mailto:publicmeeting@csb.gov) by April 14, 2012.

At the meeting CSB staff will present to the Board the results of their investigation into this incident. Key issues involved in the investigation concern flammable gas monitoring, tank isolation and hot work permits and sign-offs. Following the presentation of the CSB’s findings and safety recommendations, the Board will hear comments from the public.

At the conclusion of the public comment period, the Board will consider whether to approve the final case study and recommendations. All staff presentations are preliminary and are intended solely to allow the Board to consider in a public forum the issues and factors involved in this case. No factual analyses, conclusions or findings presented by staff should be considered final. Only after the Board has considered the final staff presentation, listened to the public comments and approved the staff case study will there be an approved final record of this incident.

The Board will also consider whether to approve the CSB’s draft 2012–2016 Strategic Plan, which includes strategic goals, objectives, and associated measures for managing and evaluating agency operations. The draft plan is available for public comment until April 12, 2012 at [www.csb.gov](http://www.csb.gov). All comments can be submitted via email to [strategicplan@csb.gov](mailto:strategicplan@csb.gov).

Please notify CSB if a translator or interpreter is needed, at least 5 business days prior to the public meeting. For more information, please contact the U.S. Chemical Safety and Hazard Investigation Board at (202) 261–7600, or visit our Web site at: [www.csb.gov](http://www.csb.gov).

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

The Census Bureau plans to continue the current OMB clearance for the Quarterly Survey of Plant Capacity Utilization (QPC). The QPC is conducted quarterly, collecting from manufacturing plants and publishers, the value of actual production, the value of production that could have been achieved if operating at "full production" levels, and the value of production that could have been achieved if operating at "national emergency" levels. The survey also collects data on work patterns by shift. These data include hours in operation, production workers, and plant hours worked.

The primary users of these data will be the Federal Reserve Board (FRB) and the Defense Logistics Agency (DLA). The FRB will use these data in several ways. First, the capital workweek data will be used as an indicator of capital use in the estimation of monthly output (industrial production). Second, the workweek data will be used to improve the projections of labor productivity that are used to align industrial production (IP) with comprehensive benchmark information in the Economic Census, Manufacturing and Annual Survey of Manufactures. Third, the utilization rate data will assist in the assessment of recent changes in IP, as most of the high-frequency movement in utilization rates reflect production changes rather than capacity changes. The DLA will use these data to assess readiness to meet demand for goods under selected national emergency scenarios.

**II. Method of Collection**

The Census Bureau will use the mail out/mail back survey forms to collect the data. We also offer an electronic version of the form for reporting via the Internet. Companies will be asked to respond within 20 days of the initial mailing. This due date will be imprinted at the top of the form. Letters encouraging participation will be mailed to companies that have not responded by the designated time. Subsequent to the letter, we will conduct a telephone follow-up.
