

**I. Abstract**

The Census Bureau plans to continue the current OMB clearance for the Quarterly Survey of Plant Capacity Utilization (QPC). The QPC is conducted quarterly, collecting from manufacturing plants and publishers, the value of actual production, the value of production that could have been achieved if operating at "full production" levels, and the value of production that could have been achieved if operating at "national emergency" levels. The survey also collects data on work patterns by shift. These data include hours in operation, production workers, and plant hours worked.

The primary users of these data will be the Federal Reserve Board (FRB) and the Defense Logistics Agency (DLA). The FRB will use these data in several ways. First, the capital workweek data will be used as an indicator of capital use in the estimation of monthly output (industrial production). Second, the workweek data will be used to improve the projections of labor productivity that are used to align industrial production (IP) with comprehensive benchmark information in the Economic Census, Manufacturing and Annual Survey of Manufactures. Third, the utilization rate data will assist in the assessment of recent changes in IP, as most of the high-frequency movement in utilization rates reflect production changes rather than capacity changes. The DLA will use these data to assess readiness to meet demand for goods under selected national emergency scenarios.

**II. Method of Collection**

The Census Bureau will use the mail out/mail back survey forms to collect the data. We also offer an electronic version of the form for reporting via the Internet. Companies will be asked to respond within 20 days of the initial mailing. This due date will be imprinted at the top of the form. Letters encouraging participation will be mailed to companies that have not responded by the designated time. Subsequent to the letter, we will conduct a telephone follow-up.

**III. Data**

### Foreign-Trade Zones Board

[Docket 26-2012]

#### Foreign-Trade Zone 277—Western Maricopa County, AZ; Application for Manufacturing Authority; Suntech Arizona, Inc., (Solar Panel Manufacturing), Goodyear, AZ

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Greater Maricopa Foreign Trade Zone, Inc., grantee of FTZ 277, requesting manufacturing authority on behalf of Suntech Arizona, Inc. (Suntech), located in Goodyear, Arizona. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on March 27, 2012.

The Suntech facility (100 employees, 117,000 square feet, 50 megawatt annual capacity) is located within Site 5 of FTZ 277. The facility is used for the manufacture of 275 and 290 watt solar panels for industrial use. Components and materials sourced from abroad (representing 80% of the value of the finished product) include: Junction boxes, silicone sealant, putty/caulking compounds, plastic sheets, glass, tin-coated copper strips, aluminum frames, insulation strips, and copper bars (duty rate ranges from duty-free to 5.3%).

FTZ procedures could exempt Suntech from customs duty payments on the foreign components used in export production. The company has no current exports, but has indicated that it may export in the future. On its domestic sales, Suntech would be able to choose the duty rates during customs entry procedures that apply to solar panels (duty-free) for the foreign inputs noted above. Suntech would also be exempt from duty payments on any of these foreign inputs that become scrap or waste during manufacturing. FTZ designation would further allow Suntech to realize logistical benefits through certain customs procedures. Customs duties also could possibly be deferred or reduced on foreign-status production equipment. The request indicates that the savings from FTZ procedures would help improve the plant's international competitiveness.

In accordance with the Board's regulations, Diane Finver of the FTZ Staff is designated examiner to evaluate and analyze the facts and information presented in the application and case record and to report findings and recommendations to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is June 4, 2012. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to June 18, 2012.

A copy of the application will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 2111, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230-0002, and in the "Reading Room" section of the Board's Web site, which is accessible via [www.trade.gov/ftz](http://www.trade.gov/ftz).

For further information, contact Diane Finver at [Diane.Finver@trade.gov](mailto:Diane.Finver@trade.gov) or (202) 482-1367.
