• Review agenda.
• Review and approval of summary from last plenary meeting.
• Review SC–225 schedule for Plenaries, working group meetings, and document preparation.
• Review action items.
• Working Group Meeting—Review draft document.
• Review new action items.
• Review agenda for tomorrow

May 2, 2012
• Review Agenda, other actions
• Review agenda for tomorrow.
• Working Group Meeting—Review draft document

May 3, 2012
• Review agenda, other actions.
• Verify dates of next plenary and upcoming working group meetings.
• Establish Agenda for next plenary meeting.
• Working Group Meeting—Review draft document.
• Working Group report, review progress and actions.
• Review all action items.
• Adjourn

Attendance is open to the interested public but limited to space availability. With the approval of the chairman, members of the public may present oral statements at the meeting. Persons wishing to present statements or obtain information should contact the person listed in the FOR FURTHER INFORMATION CONTACT section. Members of the public may present a written statement to the committee at any time.

Issued in Washington, DC, on March 29, 2012.

John Raper,
Manager, Business Operations Branch,
Federal Aviation Administration.

Agency Information Collection Activities: Request for Comments for a New Information Collection

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice and request for comments.

SUMMARY: The FHWA invites public comments about our intention to request the Office of Management and Budget’s (OMB) approval for a new information collection, which is summarized below under SUPPLEMENTARY INFORMATION. We are required to publish this notice in the Federal Register by the Paperwork Reduction Act of 1995.

DATES: Please submit comments by June 4, 2012.

ADDRESSES: You may submit comments identified by DOT Docket ID 2012–0032 by any of the following methods:

• Web Site: For access to the docket to read background documents or comments received go to the Federal eRulemaking Portal: Go to http://www.regulations.gov. Follow the online instructions for submitting comments.

Hand Delivery or Courier: U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m. ET, Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT:
Mark Ferroni, 202–366–9237, Office of Natural Environment, Federal Highway Administration, Department of Transportation, 1200 New Jersey Avenue SE., Washington, DC 20590.

Hand Delivery or Courier: U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m. ET, Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION: Title: FHWA Traffic Noise Model Version 3.0 Beta-Tester Information.

Background: Prior to the release of the Federal Highway Administration Traffic Noise Model (FHWA TNM), the FHWA Highway Traffic Noise Prediction Model (FHWA–RD–77–108), or “108 model,” was in use for over 20 years. Although an effective model for its time, the “108 model” was comprised of acoustic algorithms, computer architecture, and source code that dated to the 1970s. Since that time, significant advancements have been made in the methodology and technology for noise prediction, barrier analysis and design, and computer software design and coding. Given the fact that over $500 million were spent on barrier design and construction between 1970 and 1990, the FHWA identified the need to design, develop, test, and document a state-of-the-art highway traffic noise prediction model that utilized these advancements. This need for a new traffic noise prediction model resulted in the FHWA TNM.

The FHWA is currently developing the TNM version 3.0, with an anticipated beta-testing of this version towards the end of 2012. Version 3.0 is an entirely new, state-of-the-art computer program used for predicting noise impacts in the vicinity of highways. It uses advances in personal computer hardware and software to improve upon the accuracy and ease of modeling highway noise, including the design of effective, cost-efficient highway noise barriers. This information request is to gather information from the beta-testers on their computer configurations, their experience using the FHWA TNM and availability of TNM files.

Respondents: Approximately 25 entities.

Frequency: Once.

Estimated Average Burden per Response: Approximately 15 minutes.

Estimated Total Annual Burden Hours: Approximately 6.25 hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA’s performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB’s clearance of this information collection.

Juli Huynh,
Chief, Management Programs and Analysis Division.
