Diamond Sawblades and Parts Thereof From the Republic of Korea and the People’s Republic of China: Extension of Time Limits for the Final Results of the Antidumping Duty Administrative Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: Effective Date: April 6, 2012.

FOR FURTHER INFORMATION CONTACT: Sergio Balbontin or Yang Jin Chun, AD/ CVD Operations, Office 1, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20220; telephone: (202) 482–6478 or (202) 482–5760, respectively.

SUPPLEMENTARY INFORMATION:

Background

On December 6, 2011, the Department of Commerce (the Department) published in the Federal Register the preliminary results of the administrative reviews of the antidumping duty orders on diamond sawblades and parts thereof (diamond sawblades) from the Republic of Korea (Korea) and the People’s Republic of China (PRC). See Diamond Sawblades and Parts Thereof From the Republic of Korea: Preliminary Results of Antidumping Duty Administrative Review, 76 FR 76128 (December 6, 2011) (Preliminary Results—Korea) and Diamond Sawblades and Parts Thereof From the People’s Republic of China: Preliminary Results of Antidumping Duty Administrative Review and Intent to Rescind Review in Part, 76 FR 76135 (December 6, 2011) (Preliminary Results—PRC). On March 13, 2012, we extended the deadline for the final results of the administrative review of the antidumping duty order on diamond sawblades from the PRC. See Diamond Sawblades and Parts Thereof From the People’s Republic of China: Extension of Time Limit for Final Results of

Antidumping Duty Administrative Review, 77 FR 14733 (March 13, 2012). The final results of the administrative reviews of the antidumping duty orders on diamond sawblades from Korea and the PRC are currently due no later than April 4, 2012, and May 14, 2012, respectively.

Extension of Time Limits for the Final Results of Reviews

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to issue final results within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the time period to a maximum of 180 days after the date on which the preliminary results are published.

We determine that it is not practicable to complete the final results of these reviews within the current time limits because we need additional time to consider new allegations in both the PRC and Korea proceedings. Section 751(a)(3)(A) of the Tariff Act of 1930 (“Act”) allows us to extend the deadline for the final results of these reviews to June 3, 2012, which is 180 days after the date of the publication of the Preliminary Results—Korea and the Preliminary Results—PRC. Because June 3, 2012, falls on a weekend, we shall issue the final results of these reviews on June 4, 2012. See Notice of Clarification: Application of “Next Business Day” Rule for Administrative Determination Deadlines Pursuant to the Tariff Act of 1930, As Amended, 70 FR 24533 (May 10, 2005).

This notice is published in accordance with section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2).

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Foundry Coke Products From The People’s Republic of China: Final Results of Expedited Second Sunset Review of the Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On December 1, 2011, the Department of Commerce (“Department”) initiated the second five-year (“sunset”) review of the antidumping duty order on foundry coke products (“foundry coke”) from the People’s Republic of China (“PRC”) pursuant to section 751(c) of the Tariff Act of 1930, as amended (“Act”). On the basis of a notice of intent to participate, and an adequate substantive response filed on behalf of the domestic interested parties, as well as a lack of response from respondent interested parties, the Department conducted an expedited sunset review of the antidumping duty order, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1). As a result of the sunset review, the Department finds that revocation of the antidumping duty order on foundry coke from the PRC would be likely to lead to continuation or recurrence of dumping at the levels indicated in the “Final Results of Review” section of this notice.

DATES: Effective Date: April 6, 2012.

FOR FURTHER INFORMATION CONTACT: Jennifer Moats and Ricardo Martinez Rivera, AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW, Washington, DC 20220; telephone: (202) 482–3047 and (202) 482–4532, respectively.

SUPPLEMENTARY INFORMATION:

Background

On December 1, 2011, the Department initiated the second sunset review of the antidumping duty order on foundry coke from the PRC, pursuant to section 751(c) of the Act and 19 CFR 351.216(c)(2). The Department received a notice of intent to participate from the domestic interested parties within the deadline specified in 19 CFR 351.216(d)(3)(i). The domestic interested parties claimed interested party status under section 771(9)(C) of the Act, as a manufacturer of a domestic like product in the United States.

We received a complete substantive response from the domestic interested parties within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i).

We received no responses from respondent interested parties. As a result, the

1 ABC Coke, Erie Coke, Tonawanda Coke, and Walker Coke (collectively, “the domestic interested parties”).

2 See Initiation of Five-Year (“Sunset”) Review, 76 FR 47775 (December 1, 2011); see also Notice of Amended Final Determination of Sales at Less Than Fair Value and Antidumping Duty Order: Foundry Coke Products From The People’s Republic of China 66 FR 48025 (September 17, 2001) (“Order”).
Department conducted an expedited sunset review of the Order, pursuant to 19 CFR 351.218(e)(1).

Scope of the Order

The product covered under the antidumping duty order is coke larger than 100 mm (4 inches) in maximum diameter and at least 50 percent of which is retained on a 100 mm (4 inch) sieve, of a kind used in foundries. The foundry coke products subject to the antidumping duty order were classifiable under subheading 2704.00.00.10 (as of Jan 1, 2000) and are currently classifiable under subheading 2704.00.00.11 (as of July 1, 2000) of the Harmonized Tariff Schedule of the United States ("HTSUS"). Although the HTSUS subheadings are provided for convenience and Customs purposes, our written description of the scope of the Order is dispositive.

Analysis of Comments Received

All issues raised in this review are addressed in the "Issues and Decision Memorandum for the Final Results of the Expedited Second Sunset Review of the Antidumping Duty Order on Foundry Coke from the People’s Republic of China" ("Decision Memorandum") from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Paul Piquado, Assistant Secretary for Import Administration, dated concurrently with and hereby adopted by this notice. The issues discussed in the Decision Memorandum include (1) the likelihood of continuation or recurrence of dumping and the magnitude of the margins likely to prevail if the Order was to be revoked; and (2) the magnitude of the margins likely to prevail. Parties may find a complete discussion of all issues raised in the review and the corresponding recommendations in this public memorandum which is on file electronically via Import Administration’s Antidumping and Countervailing Duty Centralized Electronic Services System ("IA ACCESS"). Access to IA ACCESS is available in the Central Records Unit room 7046 of the main Commerce building. In addition, a complete version of the Decision Memorandum can be accessed directly on the Web at http://ia.ita.doc.gov/frn. The signed Decision Memorandum and the electronic versions of the Decision Memorandum are identical in content.

Final Results of Review

We determine that revocation of the Order would be likely to lead to continuation or recurrence of dumping at the following weighted-average percentage margins:

Notice Regarding Administrative Protective Order ("APO")

This notice also serves as the only reminder to parties subject to APO of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return of destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

This sunset review and notice are in accordance with sections 751(c), 752, and 771(i)(1) of the Act.

Paul Piquado, Assistant Secretary for Import Administration.

SUPPLEMENTARY INFORMATION: The formation of this WG is intended to bring together government officials and representatives of business, industry, trade associations, and consumer organizations on the subject of standards and test procedures used in the testing of commercial measuring devices and systems used by regulatory officials and service companies. NIST participates to promote uniformity among the states in laws, regulations, methods, and testing equipment that comprises the regulatory control of commercial weighing and measuring devices and systems and other trade and commerce issues.

The WG will review existing requirements and test procedures currently referenced in HB 44 Section 5.54., Taximeters Code, and propose changes as needed. They will also identify gaps between the Code and technologies currently in use in taxi applications. Additionally, the WG will identify and develop proposed modifications to HB 44 regarding inspection procedures used by regulatory weights and measures officials. These changes will be presented as proposals through the National Conference on Weights and Measures (NCWM).

Included among the topics to be discussed by the WG for current and emerging device technologies used in commercial distance measuring systems are: Metrology laboratory standards and test procedures, uncertainties,
