SUPPLEMENTARY INFORMATION:

Background

On December 10, 2010, NMFS made a 12-month petition finding and proposed to list the Beringia DPS and the Okhotsk DPS of the *Erignathus barbatus nauticus* subspecies of bearded seals as threatened (75 FR 77496). On December 13, 2011, in consideration of substantial disagreement regarding the sufficiency or accuracy of the model projections and analysis of future sea ice habitat in the range of the Beringia DPS of bearded seals, NMFS announced a 6-month extension of the deadline for the final listing determination to June 10, 2012 (76 FR 77465). At that time, we also announced that we were conducting special independent peer review of the sections of the status review report of the bearded seal (Cameron *et al.*, 2010) related to the disagreement, and that the resulting peer review report would be made available for public comment.

We have conducted this special peer review, and are notifying the public of the availability of a peer review report that consolidates the comments received. We are also providing the public an opportunity to submit comments or information on the peer review report for 30 days. The comment

period shall be limited to 30 days because the statutory deadline requires a final listing determination by June 10, 2012.

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Reef Fish Fishery of the Gulf of Mexico; Amendment 32 Supplement

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Supplemental proposed rule; request for comments.

SUMMARY: NMFS proposes to supplement the regulations that implemented management measures described in Amendment 32 to the Fishery Management Plan (FMP) for the Reef Fish Resources of the Gulf of Mexico (Amendment 32) prepared by the Gulf of Mexico Fishery Management Council (Council). After publication of the final rule for Amendment 32, published on February 10, 2012, NMFS identified inconsistencies in the regulatory text regarding the quotas and annual catch limits (ACLs) for “other shallow water grouper” (Other SWG) that need correction. This rule would revise the regulatory text regarding the quotas and ACLs for Other SWG. Additionally, NMFS proposes revisions to improve clarity of the regulations.

DATES: Written comments must be received on or before April 23, 2012.

ADDRESSES: You may submit comments on the supplemental proposed rule identified by “NOAA–NMFS–2011–0135” by any of the following methods:

- Electronic submissions: Submit electronic comments via the Federal e-Rulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.
- Mail: Peter Hood, Southeast Regional Office, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701.

Instructions: All comments received are a part of the public record and will generally be posted to <http://www.regulations.gov> without change. All Personal Identifying Information (for example, name, address, etc.) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

You may submit attachments to electronic comments in Microsoft Word, Excel, WordPerfect, or Adobe PDF file formats only.

Comments through means not specified in this rule will not be accepted.

Electronic copies of Amendment 32, which includes a final environmental impact statement (FEIS), a regulatory flexibility analysis, and a regulatory impact review, may be obtained from the Southeast Regional Office Web Site at <http://sero.nmfs.noaa.gov/sf/GrouperSnapperandReefFish.htm>.

SUPPLEMENTARY INFORMATION: The reef fish fishery of the Gulf of Mexico (Gulf) is managed under the FMP. The FMP was prepared by the Council and is implemented through regulations at 50 CFR part 622 under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). Background

A final rule to implement management measures described in Amendment 32 was published on February 10, 2012 (77 FR 6988). That final rule included measures to:

- Adjust the commercial gag quota and recreational annual catch target (ACT) for 2012 through 2015 and subsequent fishing years, consistent with the gag rebuilding plan established in Amendment 32;
- Adjust the shallow-water grouper (SWG) quota;
- Adjust the commercial and recreational sector’s ACLs for gag and red grouper;
- Adjust the commercial ACL for SWG;
- Establish a formula-based method for setting gag and red grouper multi-use allocation for the grouper/tilefish individual fishing quota program in the Gulf;
- Set the recreational gag fishing season from July 1 through October 31;
- Reduce the gag commercial size limit to 22 inches (59 cm) total length (TL); and
- Modify the gag and red grouper accountability measures (AMs).
