SUPPLEMENTARY INFORMATION:

Background

The Presidential Memorandum on Scientific Integrity and the Office of Science and Technology Policy 2010 guidance memorandum on scientific integrity call for ensuring the highest level of integrity in all aspects of the executive branch's involvement with scientific and technological processes.

The Draft VA Directive 0005 on Scientific Integrity:

Fosters a culture of transparency, integrity, and ethical behavior in the development and application of scientific and technological findings in VA;

Protects the development, application, and dissemination of scientific and technological information from inappropriate political or commercial influence;

Ensures that selection and retention of candidates for science and technology positions are based on demonstrated knowledge, potential, credentials, experience, and integrity;

Prohibits suppression or alteration of scientific and technological finds for political purposes;

Affords whistleblower protections to employees who have scientific integrity concerns;

Upholds professional and governmental standards for the conduct of research, including the protection of human subjects, laboratory animal welfare, research safety and security; research information protection and privacy; and research integrity;

Promotes free flow and exchange of scientific and technological information within the scientific and medical communities, as well as to Veterans and the general public;
