DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree Under The Clean Air Act, The Comprehensive Environmental Response, Compensation and Liability Act, and The Emergency Planning and Community Right-To-Know Act

Notice is hereby given that on April 5, 2012, a proposed Consent Decree ("Consent Decree") in *United States v. Marathon Petroleum Company LP, et al.*, Civil Action No. 2:12-cv-11544-DML-MJH, was lodged with the United States District Court for the Eastern District of Michigan.

In this action, the United States sought injunctive relief and civil penalties from Marathon Petroleum Company LP and its wholly-owned subsidiary, Catlettsburg Refining, LLC (collectively "MPC"), pursuant to Sections 113(b) and 167 of the Clean Air Act, 42 U.S.C. 7413(b) and 7477; Sections 109 and 113(b) of the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. 9609(c) and 9613(b); and Section 325(b)(3) of the Emergency Planning and Community Right-To-Know Act, 42 U.S.C. 11045(b)(3). The alleged violations occurred at six petroleum refineries that MPC owns and operates in the following locations: Robinson, Illinois; Catlettsburg, Kentucky; Garyville, Louisiana; Detroit, Michigan; Canton, Ohio; and Texas City, Texas. The alleged violations involve all twenty-two steam-assisted flares at these refineries.

Under the Consent Decree, MPC is required to minimize flaring and to efficiently combust any gases that are flared. Under the flare minimization terms of the settlement, MPC will implement waste gas minimization plans at each refinery; analyze the root causes of flaring events in order to prevent them in the future; and, after several years of these efforts, comply with "flaring caps," which limit the volume of gas that MPC can flare. Under the flare efficiency terms of the settlement, MPC will install numerous monitoring systems on the flares; integrate the data from the monitoring systems into automatic control logic for operation of the flares; comply with several operating limits that are designed to ensure 98% combustion efficiency; and agree to comply with 98% combustion efficiency at each flare. As a mitigation project, MPC will install controls on the sludge-handling facilities at its Detroit Refinery at an estimated cost of \$2.2 million. MPC also will pay a civil penalty of \$460,000.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and either emailed to pubcomment-ees.enrd@usdoj.gov or mailed to P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611, and should refer to *United States v. Marathon Petroleum Company LP, et al.*, D. J. Ref. No. 90-5-2-1-09915.

During the public comment period, the Consent Decree may be examined on the following Department of Justice Web site: http://www.usdoj.gov/enrd/Consent_Decrees.html. A copy of the Consent Decree may also be obtained by mail from the Consent Decree Library, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611, or by faxing or emailing a request to "Consent Decree Copy" (EESCDCopy.ENRD@usdoj.gov), fax number (202) 514-0097; phone confirmation number (202) 514-5271. If requesting a copy from the Consent Decree Library by mail, please enclose a check in the amount of \$ 49.00 (25 cents per page reproduction cost) payable to the U.S. Treasury or, if requesting by email or fax, forward a check in that amount to the Consent Decree Library at the address given above.

BILLING CODE 4410-09-P

DEPARTMENT OF LABOR

Employment and Training Administration

Announcement Regarding States Triggering "Off" in the Emergency Unemployment Compensation 2008 (EUC08) Program and the Federal-State Extended Benefits (EB) Program

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice.

SUMMARY: Announcement regarding states triggering "off" in the Emergency Unemployment Compensation 2008 (EUC08) program and the Federal State Extended Benefits (EB) Program.

The Department of Labor produces trigger notices indicating which states qualify for both EB and EUC08 benefits, and provides the beginning and ending dates of payable periods for each qualifying state. The trigger notices covering state eligibility for these programs can be found at: http://ows.doleta.gov/unemploy/claims_arch.asp.

The following changes have occurred since the publication of the last notice regarding states' EB and EUC08 trigger status:

- Based on data released by the Bureau of Labor Statistics on January 24, 2012 the three month average, seasonally-adjusted total unemployment rate (TUR trigger) for Texas fell below the 8.5% threshold to remain "on" Tier Four of the EUC08 program. The 13-week mandatory "on" period for Texas in Tier Four of the EUC08 program concluded on March 10, 2012. As a result, the week ending March 10, 2012 was the last week in which EUC claimants in Texas could exhaust Tier 3, and establish Tier 4 eligibility. With this change, the maximum potential entitlement in Texas for the EUC08 program decreased from 53 weeks to 47 weeks. Under the phase-out provisions, claimants can receive any remaining entitlement they have in Tier 4 after March 10, 2012.

- Based on data released by the Bureau of Labor Statistics on March 13, 2012, the TUR triggers for Minnesota and Utah fell below the 6% threshold to remain "on" in Tier 3 of the EUC08 program. As a result, the current

maximum potential entitlement in both of these states in the EUC08 program will decrease from 47 weeks to 34 weeks. The week ending April 7, 2012 will be the last week in which EUC08 claimants in these states can exhaust Tier 2, and establish Tier 3 eligibility. Under the phase-out provisions, claimants in these states can receive any remaining entitlement they have in Tier 3 after April 7, 2012.

- Based on data released by the Bureau of Labor Statistics on March 13, 2012, the TUR triggers for Alabama, Idaho, and Ohio fell below the 8.5% threshold to remain "on" in Tier 4 of the EUC08 program. As a result, the current maximum potential entitlement in these states for the EUC08 program will decrease from 53 weeks to 47 weeks. The week ending April 7, 2012 will be the last week in which EUC claimants in these states can exhaust Tier 3, and establish Tier 4 eligibility. Under the phase-out provisions, claimants in these states can receive any remaining entitlement they have in Tier 4 after April 7, 2012.

- Based on data released by the Bureau of Labor Statistics on March 13, 2012, the TUR trigger for Kansas fell to 6.3%, below the 6.5% threshold to remain "on", and triggering them "off" of the EB program with the week ending March 17, 2012. The payable period for Kansas in the EB program will conclude with the week ending April 7, 2012.

- Based on data released by the Bureau of Labor Statistics on March 13, 2012, the TUR triggers in Colorado, Texas, and West Virginia fell below the 8.0% threshold required to remain "on" in a high unemployment period (HUP) for EB. Claimants in these states will remain eligible for up to 20 weeks of benefits through April 7, 2012, but starting April 8, 2012, the maximum potential entitlement in the EB program for these states will decrease from 20 weeks to 13 weeks.

- Based on data released by the Bureau of Labor Statistics on March 13, 2012, as well as revisions to prior year data released on February 29, 2012, Kentucky, Massachusetts, Missouri, Ohio, Oregon, South Carolina, Tennessee, and Wisconsin no longer meet one of the criteria to remain "on" in EB, having their current TUR triggers be at least 110% of one of the trigger rates from a comparable prior period in one of the three prior years. This triggers these states "off" of the EB program with the week ending March 17, 2012. The payable period in these states for the EB program will conclude with the week ending April 7, 2012.
