Extension:

Regulation FD, OMB Control No. 3235-0536, SEC File No. 270-475.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

Regulation FD (17 CFR 243.100 *et seq.*)—Other Disclosure Materials requires public disclosure of material information from issuers of publicly traded securities so that investors have current information upon which to base investment decisions. The purpose of the regulation is to require: (1) An issuer that intentionally discloses material information, to do so through public disclosure, not selective disclosure; and (2) to make prompt public disclosure of material information that was unintentionally selectively disclosed. We estimate that approximately 13,000 issuers make Regulation FD disclosures approximately five times a year for a total of 58,000 submissions annually, not including an estimated 7,000 issuers who file Form 8-K to comply with Regulation FD. We estimate that it takes 5 hours per response (58,000 responses × 5 hours) for a total burden of 290,000 hours annually. In addition, we estimate that 25% of the 5 hours per response (1.25 hours) is prepared by the filer for an annual reporting burden of 72,500 hours (1.25 hours per response × 58,000 responses).

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the agency's estimate of the burden imposed by the collection of

information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

Form F-9, OMB Control No. 3235-0377, SEC File No. 270-333.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management Budget for extension and approval.

Form F-9 (17 CFR 239.39) is a registration statement under the Securities Act of 1933 (15 U.S.C. 77a *et seq.*) that is used to register investment grade debt or investment grade preferred securities that are offered for cash or in connection with an exchange offer and are either non-convertible or not convertible for a period of at least one year from the date of issuance and thereafter are only convertible into a security of another class of the issuer. The purpose of the information collection is to permit verification of compliance with securities law requirements and to assure the public availability and dissemination of such information. The principal function of

the Commission's forms and rules under the securities laws' disclosure provisions is to make information available to the investors. We estimate that Form F-9 takes approximately 25 hours per response and it is filed by 18 respondents. We further estimate that 25% of the 25 hours per response (6.25 hours) is prepared by the issuer for an annual reporting burden of 113 hours (6.25 hours per response × 18 responses).

Written comments are invited on: (a) Whether this proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden imposed by the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.
