SUPPLEMENTARY INFORMATION:

Title of Collection: Innovative Technology Experiences for Students and Teachers (ITEST) Program.

Evaluation for the National Science Foundation

OMB Number: 3145-New.

Expiration Date of Approval: Not applicable.

Type of request: Initial clearance.

Abstract: Innovative Technology Experiences for Students and Teachers (ITEST) is a National Science Foundation program that responds to current concerns and projections about the growing demand for professionals and information technology workers in the U.S. and seeks solutions to help ensure the breadth and depth of the STEM workforce. Information technologies are integral to both the workplace and everyday activities of most Americans. They are part of how people learn, how they interact with each other and information, and how they represent and understand their world. Attaining a basic understanding of these technologies and mastery of essential technical skills is a requirement for anyone to benefit from innovation in the modern world. The technological growth of the nation depends on a technologically literate citizenry. ITEST is designed to increase the opportunities for students and teachers to learn about, experience, and use information technologies within the context of science, technology, engineering, and mathematics (STEM), including Information Technology (IT)

courses. Supported projects are intended to provide opportunities for K-12 children and teachers to build the skills and knowledge needed to advance their study, and to function and to contribute in a technologically rich society. Additionally, exposure to engaging applications of IT is a means to stimulate student interest in the field and an important precursor to the academic preparation needed to pursue IT careers.

The ITEST program evaluation will characterize the variety of ITEST projects, measure the rigor of individual project evaluations, estimate outcomes for students and teachers involved in a sample of projects, and identify exemplary project models. In order to accomplish these tasks, the ITEST program evaluation will employ a mixed-method approach including case studies, quasi-experiments, and extensive document review. This information collection request will include a series of protocols to be used while conducting site visit interviews, a list of documents to be requested during visits, and a student-survey instrument to measure project outcomes.

Estimate of Burden:

Respondents: Individuals.

Frequency: Annual.

Estimated Number of Respondents: 984.

Estimated Burden Hours on

Respondents: 984 hours.

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: April 10, 2012.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2012-0073]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of pending NRC action to submit an information collection request to the Office of Management and Budget (OMB) and solicitation of public comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) invites public comment about our intention to request the OMB's approval for renewal of an existing information collection that is summarized below. We are required to publish this notice in the **Federal Register** under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* Generic Customer Satisfaction Surveys and NRC Form 671, Request for Review of a Customer Satisfaction Survey under Generic Clearance.

2. *Current OMB approval number:* 3150-0197.

3. *How often the collection is required:* On occasion.

4. *Who is required or asked to report:* NRC licensees and the public will be asked to report voluntarily.

5. *The number of annual respondents:* 3,384.

6. *The number of hours needed annually to complete the requirement or request:* 1,529.5 hours.

7. *Abstract:* Voluntary customer satisfaction surveys will be used to contact users of NRC services and products to determine how the Commission can improve its services and products to better meet their needs. In addition, focus groups will be conducted to discuss questions concerning those services and products. Results from the surveys will provide insight into how NRC can make its services and products cost effective, efficient and responsive to customer needs. Each survey will be submitted to OMB for its review.

Submit, by June 12, 2012, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

The public may examine and have copied for a fee publicly available documents, including the draft supporting statement, at the NRC's Public Document Room, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. OMB clearance requests are available at the
