[Project No., 14376–000]

Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On March 23, 2012, Cave Run Energy, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of a hydropower project located at the U.S. Army Corps of Engineers’ (Corps) Cave Run Dam, located on the Licking River in Rowan and Bath Counties, Kentucky. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners’ express permission.

The proposed project would consist of the following: (1) A bifurcation structure constructed at the end of the dam’s outlet conduit; (2) a powerhouse containing two turbine/generating units with a total capacity of 6.0 megawatts; (3) a 70-foot-long, 150 inch-diameter steel penstock; (4) a 1,200-foot-long, 12.7-kilovolt (kV) transmission line. The proposed project would have an average annual generation of 34,164 megawatt-hours (MWh), and operate utilizing surplus water from the Cave Run Dam, as directed by the Corps.

II. Description of Programs and Potential Disclosure of Information Claimed as Confidential Business Information to Contractors

EPA’s Office of Atmospheric Programs (OAP) has responsibility for protecting public health and the environment by addressing climate change, protecting the ozone layer, and improving regional air quality. In response to the FY2008 Consolidated
Appropriations Act (H.R. 2764; Pub. L. 110–161), EPA created the Greenhouse Gas Reporting Program (GHGRP), 40 CFR part 98 (Part 98), which requires reporting of greenhouse gas (GHG) data and other relevant information from large sources and suppliers in the United States. The purpose of Part 98 is to collect accurate and timely GHG data to inform future policy decisions. Some of the information submitted is designated or claimed to be CBI. Such information is handled in accordance with EPA’s regulations in 40 CFR part 2, subpart B and in accordance with EPA procedures that are consistent with those regulations.

EPA has, at times, determined that it is necessary to disclose to EPA contractors certain information that has been designated or claimed as CBI. When this occurs, the corresponding contract must address the appropriate use and handling of the information by the contractor. In every instance, the contractor must require its personnel who need access to information designated or claimed as CBI to sign written agreements before they are granted access to the data. In addition to contractors’ requirement to sign written agreements prior to being granted access to CBI, EPA is also required to give notice in accordance with 40 CFR 2.301(h)(2)(iii). EPA has determined that the contractors, subcontractors, and grantees (collectively referred to as “contractors”) listed below may require access to data submitted to EPA under the GHGRP that is designated or claimed as CBI. EPA is providing notice and an opportunity to comment and is issuing this Federal Register notice to inform all reporters of information under Part 98 that EPA may grant access to material that may be designated or claimed as CBI to the contractors identified below, as needed. EPA may also grant access to materials that may be designated or claimed as CBI to any of the listed subcontractors, as needed, but does not necessarily anticipate granting access to all of the listed subcontractors.

Access to data, including information designated or claimed as CBI, will commence no sooner than April 19, 2012 and will continue until the termination of this contract. If the contract is extended, this access will continue for the remainder of the contract and any further extensions without further notice.

Under Contract Number EP–W–11–054, RTI International, PO Box 12194, 3040 Cornwalls Road, Research Triangle Park, NC 27709, provides, and any of the subcontractors listed below may provide, technical support that requires access to information designated or claimed as CBI related to the GHGRP.
