**SUPPLEMENTARY INFORMATION:** In March of 2009, the President articulated six principles federal agencies should

follow to preserve and promote scientific integrity. The President also assigned the Director of the Office of Science and Technology Policy (OSTP) with the creation of guidelines for Federal Agencies to ensure the highest level of integrity in all aspects of the science and technological processes. This Scientific Integrity policy establishes standards for DOL for ensuring accuracy and integrity in all scientific activities informing rulemaking and public policy decisions in accordance with the memoranda from the President and OSTP.

Scientific Integrity of DOL scientific personnel is vital to the public interest and critical to conducting DOL's mission. Scientific activities provide data to inform many of DOL's decision makers regarding the production of leading economic indicators, evaluation of programs funded by DOL, protection of the health and safety of our Nation's workers, and implementation of labor laws that address conditions of employment, benefits and compensation.

*Request for Comments:* As part of our development of the DOL scientific integrity principles, we are soliciting public comments. Your input is important to us. To facilitate receipt of the information, the Department will create an Internet portal specifically designed to capture your input and suggestions, <http://dolscientificintegrity.ideascale.com/>.

This portal will contain a series of questions designed to gather information on how DOL can best meet these requirements. The portal is expected to open to receive comments on April 11, 2012 and accept comments for 30 days. Please provide responses that are supported with specific examples and data, where possible.

**DATES:** The portal is expected to open to receive comments starting April 11, 2012. Comments would then need to be received before May 11, 2012.

**ADDRESSES:** You may submit comments through <http://dolscientificintegrity.ideascale.com/>.

All comments will be available for public inspection at <http://dolscientificintegrity.ideascale.com/>.

*Questions for the Public:* The Department of Labor intends the questions on the portal to represent a starting point for discussion of the scientific integrity principles. The questions are meant to initiate public dialogue, and are not intended to restrict the issues that may be raised or addressed. The questions were developed with the intent to probe a range of areas.

The Department of Labor is issuing this request solely to seek useful information as it develops its policy. While responses to this request do not bind the Department of Labor to any further actions related to the response, all submissions will be made available to the public on <http://dolscientificintegrity.ideascale.com/>.

**SUPPLEMENTARY INFORMATION:**

#### I. Background

The Office of Workers' Compensation Programs (OWCP) administers the Longshore and Harbor Workers' Compensation Act (LHWCA). LHWCA provides benefits to workers injured in maritime employment on the navigable waters of the United States or in an adjoining area customarily used by an employer in loading, unloading, repairing, or building a vessel. In addition, several Acts extend the Longshore Act's coverage to certain other employees. The following regulations have been developed to implement the Act's provisions and to provide clarification in those areas where it was deemed necessary (20 CFR 702.162, 702.174, 702.175, 20 CFR 702.242, 20 CFR 702.285, 702.321, 702.201, and 702.111). In some cases, prior regulations have been updated and changed either to reflect the intent of the amended Act or to correct recognized deficiencies. This information collection is currently approved for use through June 30, 2012.
