

submitted electronically or on paper, will be made available for public viewing at www.regulations.gov as the EPA receives them and without change, unless the comment contains copyrighted material, confidential business information (CBI) or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: Prevention of Significant Deterioration and Nonattainment New Source Review (Renewal).

ICR numbers: EPA ICR No. 1230.29, OMB Control No. 2060-0003.

ICR Status: This ICR is scheduled to expire on April 30, 2012. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at the OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for the EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Part C of Title I of the Clean Air Act (Act) (42 U.S.C. 7401 *et seq.*)—"Prevention of Significant Deterioration" (PSD), and Part D—"Plan Requirements for Nonattainment Areas," require all states to adopt preconstruction review programs for new or modified major stationary sources of air pollution. In addition, the provisions of section 110 of the Act include a requirement for states to have a preconstruction review program to manage the emissions from the construction and modification of any stationary source of air pollution to assure that the National Ambient Air Quality Standards (NAAQS) are achieved and maintained. Section 176(c) of the Act requires that all federal actions conform with the state implementation plans (SIPs) to attain and maintain the NAAQS. Depending on the type of action, the federal entities must collect information themselves, hire consultants to collect the information or require applicants/sponsors of the federal action to provide the information.

Implementing regulations for these three programs are promulgated at 40 CFR 51.160 through 51.166; 40 CFR part 51, Appendix S; and 40 CFR 52.21 and

52.24. In order to receive a construction permit for a major new source or major modification, the applicant must conduct the necessary research, perform the appropriate analyses and prepare the permit application with documentation to demonstrate that their project meets all applicable statutory and regulatory "new source review" (NSR) requirements. Specific activities and requirements are listed and described in the Supporting Statement for the ICR.

Reviewing authorities, either state, local or federal, review the permit application and provide for public review of the proposed project and issue the permit based on consideration of all technical factors and public input. The EPA, more broadly, reviews a fraction of the total applications and audits the state and local programs for their effectiveness. Consequently, information prepared and submitted by the source is essential for the source to receive a permit, and for federal, state and local environmental agencies to adequately review the permit application and thereby properly administer and manage the NSR programs.

Since the previous renewal of this ICR, the EPA has filled regulatory voids that existed in Indian country (where state NSR programs do not apply) by promulgating a Part D program and a minor NSR program for Indian country. (The EPA was already implementing a Part C program in Indian country.) The implementing regulations for these programs are at 40 CFR 49.151 through 49.173. The EPA acts as the reviewing authority for these programs.

Information that is collected is handled according to the EPA's policies set forth in title 40, chapter 1, part 2, subpart B—Confidentiality of Business Information (*see* 40 CFR part 2). *See* also section 114(c) of the Act.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average about 49 hours per response. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain or disclose or provide information to or for a federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to

respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Industrial plants; state and local reviewing authorities.

Estimated Number of Respondents: 87,481, including 87,369 industry sources and 112 state and local reviewing authorities.

Frequency of Response: Responses generally are associated with NSR permit actions, which are required on occasion when facilities wish to construct or modify. In addition, existing minor sources will be required to submit a one-time registration during implementation of the minor NSR program in Indian country. Finally, state and local reviewing authorities are required to submit SIP revisions on occasion when the NSR regulations change.

Estimated Total Annual Hour Burden: 7,934,340 hours.

Estimated Total Annual Cost: \$707,226,735, including \$694,641,672 in labor costs and \$12,585,063 in annualized capital or start-up costs.

Changes in the Estimates: The burden has changed since the previous renewal due in part to an increase in the number of responses and per-permit burden due to the addition of GHGs to the PSD program. In addition, the extension of minor NSR and part D programs to Indian country to fill these regulatory gaps has increased the number of responses and the overall burden. Finally, the burden has been increased by the addition of provisions in the PSD program that will allow full integration of PM_{2.5}.

Also contributing to the increase in burden has been a change in the labor rates. As explained in section 6(b)(i), in order to improve the accuracy of burden estimates, the rates were recalculated using 2011 values for wages.

John Moses,

Director, Collection Strategies Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPPT-2012-0259; FRL-9345-5]

Certain New Chemicals; Receipt and Status Information

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5 of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture (defined by statute to include import) a new chemical (i.e., a chemical not on the TSCA Chemical Substances Inventory (TSCA Inventory)) to notify EPA and comply with the statutory provisions pertaining to the manufacture of new chemicals. Under TSCA sections 5(d)(2) and 5(d)(3), EPA is required to publish in the **Federal Register** a notice of receipt of a premanufacture notice (PMN) or an application for a test marketing exemption (TME), and to publish in the **Federal Register** periodic status reports on the new chemicals under review and the receipt of notices of commencement (NOC) to manufacture those chemicals. This document, which covers the period from March 1, 2012 to March 23, 2012, and provides the required notice and status report, consists of the PMNs and TMEs, both pending or expired, and the NOC to manufacture a new chemical that the Agency has received under TSCA section 5 during this time period.

DATES: Comments identified by the specific PMN number or TME number, must be received on or before May 17, 2012.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPPT-2012-0259, and the specific PMN number or TME number for the chemical related to your comment, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

- *Mail:* Document Control Office (7407M), Office of Pollution Prevention and Toxics (OPPT), Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001.

- *Hand Delivery:* OPPT Document Control Office (DCO), EPA East Bldg., Rm. 6428, 1201 Constitution Ave. NW., Washington, DC. The DCO is open from 8 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The telephone number for the DCO is (202) 564-8930. Such deliveries are only accepted during the DCO's normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Instructions: EPA's policy is that all comments received will be included in the docket without change and may be made available on-line at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information

whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through [regulations.gov](http://www.regulations.gov) or email. The [regulations.gov](http://www.regulations.gov) Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to EPA without going through [regulations.gov](http://www.regulations.gov), your email address will be automatically captured and included as part of the comment that is placed in the docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the docket are listed in the docket index available at <http://www.regulations.gov>. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available electronically at <http://www.regulations.gov>, or, if only available in hard copy, at the OPPT Docket. The OPPT Docket is located in the EPA Docket Center (EPA/DC) at Rm. 3334, EPA West Bldg., 1301 Constitution Ave. NW., Washington, DC. The EPA/DC Public Reading Room hours of operation are 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number of the EPA/DC Public Reading Room is (202) 566-1744, and the telephone number for the OPPT Docket is (202) 566-0280. Docket visitors are required to show photographic identification, pass through a metal detector, and sign the EPA visitor log. All visitor bags are processed through an X-ray machine and subject to search. Visitors will be provided an EPA/DC badge that must be visible at all times in the building and returned upon departure.

FOR FURTHER INFORMATION CONTACT: *For technical information contact:* Bernice Mudd, Information Management Division (7407M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001;

telephone number: (202) 564-8951; fax number: (202) 564-8955; email address: mudd.bernice@epa.gov.

For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (202) 554-1404; email address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general. As such, the Agency has not attempted to describe the specific entities that this action may apply to. Although others may be affected, this action applies directly to the submitter of the PMNs addressed in this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](http://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).

- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.

- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

- iv. Describe any assumptions and provide any technical information and/or data that you used.

- v. If you estimate potential costs or burdens, explain how you arrived at

your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

II. Why is EPA taking this action?

EPA classifies a chemical substance as either an “existing” chemical or a “new” chemical. Any chemical substance that is not on EPA’s TSCA Inventory is classified as a “new chemical,” while those that are on the TSCA Inventory are classified as an “existing chemical.” For more information about the TSCA Inventory go to: <http://www.epa.gov/opptintr/newchems/pubs/inventory.htm>. Anyone

who plans to manufacture or import a new chemical substance for a non-exempt commercial purpose is required by TSCA section 5 to provide EPA with a PMN, before initiating the activity. Section 5(h)(1) of TSCA authorizes EPA to allow persons, upon application, to manufacture (includes import) or process a new chemical substance, or a chemical substance subject to a significant new use rule (SNUR) issued under TSCA section 5(a), for “test marketing” purposes, which is referred to as a test marketing exemption, or TME. For more information about the requirements applicable to a new chemical go to: <http://www.epa.gov/opt/newchems>.

Under TSCA sections 5(d)(2) and 5(d)(3), EPA is required to publish in the **Federal Register** a notice of receipt of a PMN or an application for a TME and to publish in the **Federal Register** periodic status reports on the new

chemicals under review and the receipt of NOCs to manufacture those chemicals. This status report, which covers the period from March 1, 2012 to March 23, 2012, consists of the PMNs and TMEs, both pending or expired, and the NOCs to manufacture a new chemical that the Agency has received under TSCA section 5 during this time period.

III. Receipt and Status Reports

In Table I of this unit, EPA provides the following information (to the extent that such information is not claimed as CBI) on the PMNs received by EPA during this period: The EPA case number assigned to the PMN, the date the PMN was received by EPA, the projected end date for EPA’s review of the PMN, the submitting manufacturer/importer, the potential uses identified by the manufacturer/importer in the PMN, and the chemical identity.

TABLE I—45 PMNS RECEIVED FROM 03/01/12 TO 3/23/12

Case No.	Received date	Projected notice end date	Manufacturer/importer	Use	Chemical
P-12-0216	03/01/2012	05/29/2012	CBI	(G) Laundry and auto dishwash additive.	(G) Carbohydrate, polymers with acrylic acid and maleic anhydride, maltodextrin and methacrylic acid, sodium salt, hydrogen peroxide- and peroxydisulfuric acid ((Ho)s(O)2]2O2) sodium salt (1:2)-initiated.

Proposed CERCLA Administrative Cost Recovery Settlement; Estate of Benjamin C. Schilberg, Cadlerock Properties Site, Ashford and Willington, CT

AGENCY: Environmental Protection Agency.

ACTION: Notice of proposed settlement; request for public comment.

SUMMARY: In accordance with Section 122(i) of the Comprehensive Environmental Response Compensation, and Liability Act, as amended ("CERCLA"), 42 U.S.C. 9622(i), notice is hereby given of a proposed administrative settlement for recovery of past costs concerning the Cadlerock Properties Superfund Site in Ashford and Willington, Connecticut with the

following settling party: Estate of Benjamin C. Schilberg. The settlement requires the settling party to pay \$170,000 to the Hazardous Substance Superfund. The settlement includes a covenant not to sue the settling party pursuant to Section 107(a) of CERCLA, 42 U.S.C. 9607(a). For thirty (30) days following the date of publication of this notice, the Agency will receive written comments relating to the settlement. The Agency will consider all comments received and may modify or withdraw its consent to the settlement if comments received disclose facts or considerations which indicate that the settlement is inappropriate, improper, or inadequate.

The Agency's response to any comments received will be available for public inspection at 5 Post Office Square, Boston, MA 02109-3912.

DATES: Comments must be submitted by May 17, 2012 of this notice.
