

for energy and communication site development, exclusion from rights-of-way, management to Visual Resource Management Class II (VRM II) standards, and limiting vehicle use to designated roads and trails. Use limitations associated with this ACEC where it does not overlap with the Sutton Mountain WSA would be similar except for an NSO stipulation for mineral leasing, and other special stipulations for developments for energy, communication sites, and rights-of-way. Other proposed ACECs include the 6,639-acre Black Canyon RNA/ACEC, which would protect several sensitive plants and unique plant communities. Use limitations for this proposed ACEC include exclusion of livestock grazing, closure to off-highway motorized vehicles, an NSO stipulation for mineral leasing, closure to salable mineral, energy and communication site development, and exclusion of rights-of-way. The proposed plan would also add 1,153 acres to the existing 5,999-acre Horn Butte ACEC to protect Washington ground squirrel habitat. Use limitations for the expanded Horn Butte ACEC include management to VRM II standards, prohibition of mechanical noxious weed control in Fourmile Canyon, an NSO stipulation for mineral leasing, closure to salable minerals and energy and communication site development, and exclusion of rights-of-way. Also proposed is the addition of the North Fork John Day River (16,837 acres), Armstrong Canyon (3,885 acres) and Ferry Canyon (2,364 acres) ACECs to protect visual resource values. Use limitations include management to VRM II standards, NSO stipulation for mineral leasing, closure to communication site development, and exclusion of rights-of-way. The proposed plan also eliminates the existing Spanish Gulch ACEC (333 acres). In the event that Congress releases any of the three WSAs along the lower John Day River (Lower John Day, North Pole Ridge, and Thirtymile) from WSA status, the released lands would be designated as ACECs to preserve scenic and other values. Use limitations would include management to VRM II standards, NSO stipulation for mineral leasing and closure to salable minerals, closure to energy and communication site development, and exclusion of rights-of-way (except for the existing PGE pipeline right-of-way). For more detailed information on each ACEC proposal, see the Special Designations section in the Proposed RMP/Final EIS.

Instructions for filing a protest with the Director of the BLM regarding the Proposed RMP/Final EIS may be found

in the "Dear Reader" letter of the John Day Basin Proposed RMP/Final EIS and at 43 CFR 1610.5–2. Emailed and faxed protests will not be accepted as valid protests unless the protesting party also provides the original letter by either regular or overnight mail postmarked by the close of the protest period. Under these conditions, the BLM will consider the emailed or faxed protest as an advanced copy and it will receive full consideration. If you wish to provide the BLM with such advance notification, please direct faxed protests to the attention of the BLM protest coordinator at 202–912–7212, and emails to Brenda_Hudgens_Williams@blm.gov. All protests, including the follow-up letter to emails or faxes, must be in writing and mailed to the appropriate address as set forth in the **ADDRESSES** section above.

Before including your address, phone number, email address, or other personal identifying information in your protest, you should be aware that your entire protest—including your personal identifying information—may be made publicly available at any time. While you can ask us in your letter to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
