Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

14 CFR Part 71

[Docket No. FAA–2012–0287; Airspace Docket No. 11–AWP–21]

RIN 2120–AA66

Proposed Amendment of Air Traffic Service Routes; Southwestern United States

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to modify Jet Route J–2, and VOR Federal airways V–16, V–66, and V–202 in southern Arizona and New Mexico. The FAA is proposing this action due to the scheduled decommissioning of the Cochise, AZ, VHF omnirange tactical air navigation aid (VORTAC) which currently forms segments of the routes. This would enhance enroute navigation within the National Airspace System.

DATES: Comments must be received on or before June 7, 2012.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, M–30, 1200 New Jersey Avenue SE., West Building Ground Floor, Room W12–140, Washington, DC 20590–0001; telephone: (202) 366–9826. You must identify FAA Docket No. FAA–2011–0287 and Airspace Docket No. 11–AWP–21 at the beginning of your comments. You may also submit comments through the Internet at http://www.regulations.gov. Comments wishing the FAA to acknowledge receipt of their comments on this action must submit with those comments a self-addressed, stamped postcard on which the following statement is made: “Comments to FAA Docket No. FAA–2012–0287 and Airspace Docket No. 11–AWP–21.” The postcard will be date/time stamped and returned to the commenter.

All communications received on or before the specified comment closing date will be considered before taking action on the proposed rule. The proposal contained in this action may be changed in light of comments received. All comments submitted will be available for examination in the public docket both before and after the comment closing date. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the Internet at http://www.regulations.gov. Recently published rulemaking documents can also be accessed through the FAA’s web page at http://www.faa.gov/airports_airtraffic/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received and any final disposition in person in the Dockets Office (see ADDRESSES section for address and phone number) between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. An informal docket may also be examined during normal business hours at the office of the Western Service Center, Operations Support Group, Federal Aviation Administration, 1601 Lind Ave. SW., Renton, WA 98057.

Persons interested in being placed on a mailing list for future NPRMs should contact the FAA’s Office of Rulemaking, (202) 267–9677, for a copy of Advisory Circular No. 11–2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

The Proposal

The FAA is proposing an amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 to modify Jet Route J–2, and VOR Federal airways V–16, V–66, and V–202. This action is necessary due to the decommissioning of the Cochise, AZ, VORTAC scheduled in the Fall of 2012. The proposed changes would provide for the continuity of affected routes. Specifically, the portion of J–2 that currently extends from Gila Bend, AZ; to Cochise, AZ; to El Paso, TX, would be realigned to proceed from Gila Bend to Tucson, AZ, and then to El Paso, TX (the remainder of the route would be unchanged).

The portion of V–16 that currently extends from Tucson, AZ; to Cochise, AZ; to Columbus, NM, would be realigned to proceed from Tucson, AZ, to San Simon, AZ; then to Columbus, NM (remainder of route unchanged).

The routing of V–66 would be amended only by removal of exclusionary language in the legal description that reads “excluding the airspace above 13,000 feet MSL from the INT of Tucson, AZ, 122° and Cochise, AZ, 257° radials to the INT of Douglas, AZ, 064° and Columbus, NM, 277° radials.” The exclusion was originally in place due to special use airspace (SUA) in the vicinity of the route. Air Traffic Control (ATC) has determined that the exclusion is no longer required to accommodate the SUA activity.

Eliminating the exclusion would allow ATC to use V–66 above 13,000 feet MSL as needed. This would provide greater flexibility for ATC and more efficient use of airspace.

V–202 currently extends from Tucson, AZ; to Cochise, AZ; to San Simon, AZ;
to Silver City, NM; to Truth or Consequences, NM. The western portion of V–202 that extends between Tucson-Cochee-San Simon would be deleted. The modified V–202 would begin at San Simon, AZ; to Silver City, NM; to Truth or Consequences, NM. In a separate action, the FAA is proposing to establish RNAV route T–310 that would extend between Tucson, AZ, and Truth or Consequences, NM. The route would overlie the track of the deleted section of V–202 providing an alternate means of navigation along that route segment.

Radials in the route descriptions below are stated in True degrees, except for the proposed revised airway segments, which include both True and Magnetic values. In a final rule, only True degrees would be stated.

Jet routes are published in paragraph 2004, and VOR Federal airways are published in paragraph 6010, of FAA Order 7400.9V dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR 71.1. The jet routes and VOR Federal airways listed in this document would be subsequently published in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it modifies the route structure as required to preserve the safe and efficient flow of air traffic.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

**PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS**

1. The authority citation for part 71 continues to read as follows:

   § 71.1 [Amended]

   The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.9V, Airspace Designations and Reporting Points, Dated August 9, 2011 and effective September 15, 2011, is amended as follows:

   **Paragraph 2004 Jet routes.**

   * * * * *

   **J–2 [Amended]***

   From Mission Bay, CA, via Imperial, CA; Bard, AZ; INT of the Bard 089° and Gila Bend, AZ; 261° radials; Gila Bend; Tucson, AZ; El Paso, TX; Fort Stockton, TX, Junction, TX; San Antonio, TX; Humble, TX; Lake Charles, LA; Baton Rouge, LA; Semmes, AL; Crestview, FL; INT of the Crestview 091° and the Seminole, FL, 290° radials; Seminole to Taylor, FL.

   * * * * *

   Paragraph 6010 Domestic VOR federal airways.

   **V–16 [Amended]**

   From Los Angeles, CA; Paradise, CA; Palm Springs, CA; Blythe, CA; Buckeye, AZ; Phoenix, AZ; INT Phoenix 155° and Stanfield, AZ, 105° radials; Tucson, AZ; San Simon, AZ; INT San Simon 119°(T)/106°(M) and Columbus, NM, 277°(T)/265°(M) radials; Columbus; El Paso, TX; Salt Flat, TX; Wink, TX; INT Wink 066° and Big Spring, TX, 260° radials; Big Spring; Abilene, TX; Bowie, TX; Bonham, TX; Paris, TX; Texarkana, AR; Pine Bluff, AR; Marvell, AR; Holly Springs, MS; Jacks Creek, TN; Shelbyville, TN; Hinch Mountain, TN; Voluntro, TN; Holston Mountain, TN; Pulaski, VA; Roanoke, VA; Lynchburg, VA; Flat Rock, VA; Richmond, VA; INT Richmond 039° and Patuxent, MD, 228° radials; Patuxent; Smyrna, DE; Cedar Lake, NJ; Coyle, NJ; INT Coyle 036° and Kennedy, NY, 209° radials; Kennedy; Deer Park, NY; Calverton, NY; Norwich, CT; Boston, MA. The airspace within Mexico and the airspace below 2,000 feet MSL outside the United States is excluded. The airspace within Restricted Areas R–5002A, R–5002C, and R–5002D is excluded during their times of use. The airspace within Restricted Areas R–4005 and R–4006 is excluded.

   **V–66 [Amended]**

   From Mission Bay, CA; Imperial, CA; 13 miles, 24 miles, 25 MSL; Bard, AZ; 12 miles, 35 MSL; INT Bard 089° and Gila Bend, AZ; 261° radials; 46 miles, 35 MSL; Gila Bend; Tucson, AZ, 7 miles wide (3 miles south and 4 miles north of centerline); Douglas, AZ; INT Douglas 064° and Columbus, NM, 277° radials; Columbus; El Paso, TX; 6 miles wide; INT El Paso 109° and Hudspeth, TX, 287° radials; 6 miles wide; Hudspeth; Pecos, TX; Midland, TX; INT Midland 083° and Abilene, TX, 252° radials; Abilene; to Millsap, TX. From Crimson, AL, Brookwood, AL; LaGrange, GA; INT LaGrange 120° and Columbus, GA, 068° radials; Columbus 068° and Athens, GA, 195° radials; Athens; Greenwood, SC; Sandhills, NC; Raleigh–Durham, NC; Franklin, VA.

   **V–202 [Amended]***

   From San Simon, AZ; Silver City, NM; to Truth or Consequences, NM. Issued in Washington, DC, on April 16, 2012.

   Gary A. Norek,
   Manager, Airspace, Regulations & ATC Procedures Group.

RIN 2120–AA66

Proposed Establishment of Area Navigation (RNAV) Routes; Southwestern United States

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to establish two new low-altitude RNAV routes, designated T–306 and T–310, in southwestern United States. The new routes would expand the availability of RNAV within the National Airspace System (NAS) and provide substitute
