Supplementary Information:
I. Public Participation

Instructions: All submissions received must include the agency name and docket ID. Regardless of the method used for submitting comments or material, all submissions will be posted, without change, to the Federal eRulemaking Portal at http://www.regulations.gov, and will include any personal information you provide. Therefore, submitting this information makes it public. You may wish to read the Privacy Act notice which can be viewed by clicking on the “Privacy Notice” link in the footer of www.regulations.gov. Docket: The proposed policy is available in docket ID FEMA–2012–0007. For access to the docket to read background documents or comments received, go to the Federal eRulemaking Portal at http://www.regulations.gov and search for the docket ID. Submitted comments may also be inspected at FEMA, Office of Chief Counsel, Room 835, 500 C Street SW., Washington, DC 20472.

II. Background

The Pre-Disaster Mitigation program (PDM) and the Hazard Mitigation Grant Program (HMP) of the Federal Emergency Management Agency (FEMA) and the Hazard Mitigation Assistance for Wind Retrofit Projects for Existing Residential Buildings.
Program (HMGP), authorized by sections 203 and 404 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 et seq., provide funding for eligible, feasible, and cost-effective activities that have the purpose of reducing or eliminating risks to life and property from hazards and their effects. One such activity is the implementation of wind retrofit projects to protect existing one- and two-family residential buildings (not including manufactured housing) from hurricane-force wind-related damages. FEMA has prepared a proposed Mitigation Policy to address PDM and HMGP programmatic guidelines for this project type. The policy will help ensure national consistency in the use of funds for this hazard mitigation activity. The proposed policy identifies key project requirements specific to this hazard mitigation activity including: Eligible activities and Mitigation Packages, building evaluation criteria, project application requirements, and eligible and ineligible costs. The proposed policy also provides the public, building professionals and decision-makers with direction on the implementation steps required for a complete wind retrofit project subapplication.

Thousands of existing homes in the hurricane-prone region are vulnerable to the effects of coastal high-wind events and are not designed to the same level of wind resistance required by today’s codes and standards. FEMA concluded that additional technical guidance is needed to facilitate the development of hazard mitigation retrofit projects for such residential buildings. As a result, the proposed policy relies on publication FEMA P–804, Wind Retrofit Guide for Residential Buildings, as a guideline for these wind retrofit projects. FEMA P–804 provides the technical guidance needed to promote and properly perform wind retrofit projects for existing one- and two-family residential buildings. The publication offers a unified technical and programmatic solution to residential wind retrofit projects using three Mitigation Packages (Basic, Intermediate, and Advanced). Each successive package contains retrofit standards that increase the level of protection for wind-related damages to the building.

Authority: 42 U.S.C. 5133; 5170(c).

[Transportation Security Administration
Docket No. TSA–2004–19515]

Extension of Agency Information Collection Activity Under OMB Review: Air Cargo Security Requirements

AGENCY: Transportation Security Administration, DHS.

ACTION: 30-day notice.

SUMMARY: This notice announces that the Transportation Security Administration (TSA) has forwarded the Information Collection Request (ICR), Office of Management and Budget (OMB) control number 1652–0040, abstracted below to OMB for review and approval of an extension of the currently approved collection under the Paperwork Reduction Act (PRA). The ICR describes the nature of the information collection and its expected burden. TSA published a Federal Register notice, with a 60-day comment period soliciting comments, of the following collection of information on February 24, 2012, 77 FR 11145. TSA has not received any comments. The collection of information that make up this ICR involve five broad categories affecting airports, passenger aircraft operators, foreign air carriers, indirect air carriers and all-cargo carriers operating under a TSA-approved security program. These five categories are: Security programs, security threat assessments (STAs), known shipper data via the Known Shipper Management System (KSMS), cargo screening reporting, and evidence of compliance recordkeeping.

DATES: Send your comments by May 24, 2012. A comment to OMB is most effective if OMB receives it within 30 days of publication.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, OMB. Comments should be addressed to Desk Officer, Department of Homeland Security/TSA, and sent via electronic mail to oira_submission@omb.eop.gov or faxed to (202) 395–6974.

FOR FURTHER INFORMATION CONTACT: Susan Perkins, TSA Paperwork Reduction Act (PRA) Officer, Office of Information Technology (OIT), TSA–11, Transportation Security Administration, 601 South 12th Street, Arlington, VA 20598–6011; telephone (571) 227–3398; email TSA_PRA@dhs.gov.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation is available at http://www.reginfo.gov.

Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency’s estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Request

Title: Air Cargo Security Requirements.

Type of Request: Extension of a currently approved collection.

OMB Control Number: 1652–0040.

Forms(s): Aviation Security Known Shipper Verification Form, Aircraft Operator or Air Carrier Reporting Template, Security Threat Assessment Application, Aviation Security Known Shipper Verification Form.

Affected Public: The collection of information that make up this ICR involve regulated entities including airports, passenger aircraft operators, foreign air carriers, indirect air carriers and all-cargo carriers operating under a TSA-approved security program.

Abstract: TSA is seeking renewal of an expiring collection of information. Congress set forth in the Aviation and Transportation Security Act (ATSA), Pub. L. 107–71, two specific requirements for TSA in the area of air cargo security: (1) To provide for screening of all property, including U.S. mail, cargo, carry-on and checked baggage, and other articles, that will be carried aboard a passenger aircraft; and (2) to establish a system to screen, inspect, report, or otherwise ensure the security of all cargo that is to be transported in all-cargo aircraft as soon as practicable. In the Implementing Recommendations of the 9/11 Commission Act of 2007, Public Law
