Although the HTSUS item numbers are provided for convenience and customs purposes, the written description of the scope of the orders remains dispositive.

Continuation of the Order

As a result of the determinations by the Department and the ITC that revocation of these antidumping duty orders would likely lead to continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act, the Department hereby orders the continuation of the antidumping duty orders on brass sheet and strip from France, Italy, Germany and Japan.

U.S. Customs and Border Protection will continue to collect antidumping duty cash deposits at the rates in effect at the time of entry for all imports of subject merchandise. The effective date of continuation of these orders will be the date of publication in the **Federal Register** of this notice of continuation. Pursuant to section 751(c)(2) of the Act, the Department intends to initiate the next five-year review of this order not later than 30 days prior to the fifth anniversary of the effective date of continuation.

This five-year sunset review and this notice are in accordance with section 751(c) of the Act and published pursuant to section 777(i)(1) of the Act.

Dated: April 20, 2012.

Paul Piquado,

Assistant Secretary for Import Administration.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) requires that Federal agencies provide interested parties an early opportunity to comment on information collection requests. The Director, Information Collection Clearance Division, Privacy, Information and Records Management Services, Office of Management, publishes this notice containing proposed information collection requests at the beginning of the Departmental review of the information collection. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance

the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Race to the Top Annual Performance Report.

OMB Control Number: 1894-0012.

Type of Review: Reinstatement, without change of a previously approved collection.

Total Estimated Number of Annual Responses: 19.

Total Estimated Number of Annual Burden Hours: 1,845.

Abstract: The American Recovery and Reinvestment Act provides \$4.3 billion for the Race to the Top Fund (referred to in the statute as the State Incentive Grant Fund). This is a competitive grant program. The purpose of the program is to encourage and reward States that are creating the conditions for education innovation and reform; achieving significant improvement in student outcomes, including making substantial gains in student achievement, closing achievement gaps, improving high school graduation rates, and ensuring student preparation for success in college and careers; and implementing ambitious plans in four core education reform areas: (a) Adopting internationally-benchmarked standards and assessments that prepare students for success in college and in the workplace; (b) building data systems that measure student success and inform teachers and principals in how they can improve their practices; (c) increasing teacher effectiveness and achieving equity in teacher distribution; and (d) turning around our lowest-achieving schools.

In order to fulfill our responsibilities for programmatic oversight and public reporting, the Department has developed a Race to the Top Annual Performance Report that is tied directly to the Race to the Top selection criteria and priorities previously established and published in the **Federal Register**. The report is grounded in the key performance targets included in grantees' approved Race to the Top plans. Grantees will be required to report on their progress in the four core education reform areas and in Science, Technology, Engineering, and Mathematics. This reporting includes narrative sections on progress and key performance indicators. As was the case in the completion of the Race to the Top applications, grantees will coordinate

with LEAs to collect and report on school and district-level data elements.

In order to robustly fulfill our programmatic and fiscal oversight responsibilities, it is essential that we gather this data from Race to the Top grantees and subgrantees. In the first year of the grant, the APR was collected through an emergency clearance approval. In order to allow for a comprehensive assessment of progress for the remaining grant period to both update the public and Congress about Race to the Top and pinpoint areas requiring technical assistance, we are requesting a three-year clearance with this form.

Additionally, through the Department of Defense and Full-Year Continuing Appropriations Act, 2011 (FY 2011 Appropriations Act), the Department made a total of \$200 million in grants to seven additional States in Phase 3 to invest in a portion of their plans from the Phase 2 competition. The Department is requesting these States, who will complete a sub-set of the APR based on their approved plans, be included in the three-year clearance with this form.

Dated: April 23, 2012.

Darrin A. King,

Director, Information Collection Clearance Division, Privacy, Information and Records Management Services, Office of Management.
