2012. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for the EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR is for activities related to the implementation of the EPA's regional haze regulations, for the time period between October 31, 2012, and October 30, 2015, and renews the previous ICR. The regional haze rule codified at 40 CFR parts 308 and 309, as authorized by sections 169A and 169B of the Clean Air Act (CAA), requires states to develop implementation plans to protect visibility in 156 federally-protected Class I areas. Tribes may choose to develop implementation plans. For this time period, states will be revising their implementation plans to comply with the regulations. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information request unless it displays a currently valid OMB control number. The OMB control numbers for the EPA's regulations in 40 CFR are listed in 40 CFR part 9 and 48 CFR chapter 15.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 320 hours per response. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 34.

Frequency of response: Every 5 years.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 4,080 hours.

Estimated total annual costs: $198,084. This includes an estimated burden cost of $198,084 and an estimated cost of $0 for capital investment or maintenance and operational costs.

Are there changes in the estimates from the last approval?

There are revisions to the cost estimates since the last renewal of this ICR (August 26, 2009; 74 FR 43118). The last collection request anticipated the program progressing from the planning stages to implementation. The last renewal estimate was 31,841 hours and $2,563,000. The current estimate represents a decrease in hours and in the costs. The change in burden is a program adjustment, reflecting changes in labor rates, changes in the activities conducted due to the normal progression of the program, and the fact that the aggregate initial regional haze SIPs and best available retrofit technology (BART) determinations will have been acted upon by the EPA by November 2012 and the states will be shifting their focus to development of interim progress reports required by the regional haze rule.

What is the next step in the process for this ICR?

The EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, the EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: April 20, 2012.

Mary E. Henigin,

Acting Director, Office of Air Quality Planning and Standards.
