

Total Annual Hours: 365,136. (For policy questions regarding this collection contact William Lehrman at 410-786-1037. For all other issues call 410-786-1326.)

2. Type of Information Collection

Request: Reinstatement with change of a previously approved collection; *Title of Information Collection:* Site Investigation for Durable Medical Equipment (DME) Suppliers; *Use:* CMS is mandated to identify and implement measures to prevent fraud and abuse in the Medicare program. To meet this challenge, CMS has moved forward to improve the quality of the process for enrolling suppliers into the Medicare program by establishing a uniform application for enumerating suppliers of durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS). Implementation of enhanced procedures for verifying the enrollment information has also improved the enrollment process. As part of this process, verification of compliance with supplier standards is necessary. The site investigation form has been used in the past to aid the Medicare contractor (the National Supplier Clearinghouse and/or its subcontractors) in verifying compliance with the required supplier standards found in 42 CFR 424.57(c). The primary function of the site investigation form is to provide a standardized, uniform tool to gather information from a DMEPOS supplier (as found in 42 CFR 424.57(c)) and where it practices or renders its services.

This site investigation form collects the same information as its predecessor, with the exception of one new yes/no question under the "Records and Telephone" section (question 11(a)) used to verify if the DMEPOS supplier maintains physician ordering/referring records for the supplies and/or services it renders to Medicare beneficiaries (if applicable). This information is required by section 1833(g) of the Social Security Act (the Act) which states that all physicians and non-physician practitioners that meet the definitions at section 1861(r) and 1842(b)(18)(C) of the Act, be uniquely identified for all claims for services that are ordered or referred. Other information collected on this site investigation remains unchanged, but has been reformatted for greater functionality. *Form Number:* CMS-R-263 (OCN: 0938-0749); *Frequency:* Once; *Affected Public:* Private Sector—Business or other for-profits and not-for-profit institutions; *Number of Respondents:* 30,000; *Total Annual Responses:* 30,000; *Total Annual Hours:*

15,000. (For policy questions regarding this collection contact Kimberly McPhillips at 410-786-5374. For all other issues call 410-786-1326.)

3. Type of Information Collection

Request: Revision of a currently approved collection;

Title of Information Collection: Medicare Registration Application; *Use:* The CMS 855O allows a physician to receive a Medicare identification number (without being approved for billing privileges) for the sole purpose of ordering and referring Medicare beneficiaries to Medicare approved providers and suppliers. This new Medicare registration application form allows physicians who do not provide services to Medicare beneficiaries to be given a Medicare identification number without having to supply all the data required for the submission of Medicare claims. It also allows the Medicare program to identify ordering and referring physicians without having to validate the amount of data necessary to determine claims payment eligibility (such as banking information), while continuing to identify the physician's credentials as valid for ordering and referring purposes. Since the physicians and non-physician practitioners submitting this application are not enrolling in Medicare to submit claims but are only registering with Medicare as eligible to order and refer, CMS believes changing the title from Medicare Enrollment Application to Medicare Registration Application better captures the actual purpose of this form.

Where appropriate, CMS has changed all references to enrollment or enrolling to registration and registering and Medicare billing number to National Provider Identifier. CMS also added a check box to allow physicians and non-physician practitioners to withdraw from the ordering and referring registry. A section to collect information on professional certifications was added for those practitioners who are not professionally licensed. Editorial and formatting corrections were made in response to prior comments received during the approval of the current version of this application. Other minor editorial and formatting corrections were made to better clarify the purpose of this application. *Form Number:* CMS-855(O) (OCN: 0938-1135); *Frequency:* Occasionally; *Affected Public:* Individuals; *Number of Respondents:* 48,500; *Total Annual Responses:* 48,500; *Total Annual Hours:* 24,125. (For policy questions regarding this collection contact Kimberly McPhillips at 410-786-5374. For all other issues call 410-786-1326.)
