SUPPLEMENTARY INFORMATION: Executive Order 12866: The Office of Management and Budget has exempted this action from the review requirements of Executive Order 12866 pursuant to Section 6 of that order.

Regulatory Flexibility Act: Under the Regulatory Flexibility Act (RFA), 5 U.S.C. 601 et seq., a Federal agency must prepare an initial regulatory flexibility analysis “for any proposed rule” for which the agency “is required by section 553 of the Administrative Procedure Act (APA), or any other law, to publish general notice of proposed rulemaking.” The RFA exempts from this requirement any rule that the issuing agency certifies “will not, if

promulgated, have a significant economic impact on a substantial number of small entities.” EPA has concluded that NPDES general permits are permits, not rulemakings, under the APA and thus not subject to APA rulemaking requirements or the RFA. Notwithstanding that general permits are not subject to the RFA, EPA has determined that this GP, as issued, will not have a significant economic impact on a substantial number of small entities.

BILLING CODE 6560–50–P

OMB No.: 0980–0160.

Description: This information collection is required by federal statute. Each State Protection and Advocacy System must prepare and submit a program Performance Report for the preceding fiscal year of activities and accomplishments and of conditions in the State. The information in the Annual Report will be aggregated into a national profile of Protection and Advocacy Systems. It will also provide the Administration on Developmental Disabilities (ADD) with an overview of program trends and achievements and will enable ADD to respond to administration and congressional requests for specific information on program activities. This information will also be used to submit a Centennial Report to Congress as well as to comply with requirements in the Government Performance and Results Act of 1993.

Proposed Information Collection Activity; Comment Request

Title: Measure Development: Quality of Family-Provider Relationships in Early Care and Education.

OMB No.: New collection.

Description

The Office of Planning, Research and Evaluation (OPRE), the Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS), is proposing a data collection activity as part of the development of an early care and education (ECE) quality measurement tool to assess family-provider relationships that support positive child developmental outcomes and family wellbeing. The major goal of this project is to develop a measure of the quality of family-provider relationships that will be (1) applicable across multiple types of early care and education settings and diverse program structures (including Head Start/Early Head Start); (2) sensitive across cultures associated with racial, ethnic, and socioeconomic characteristics; and (3) reliable in both English and Spanish. At this time, four self-administered surveys (one for center- and home-based care directors, one for child care providers/teachers, and two for parents) and an

environmental checklist have been developed, based on a literature review, a review of existing measures, and information collected through focus groups (under OMB Clearance 0970-0356) and cognitive interviews (under OMB Clearance 0970-0355).

To test these measures, two stages of data collection activities are proposed for this information collection request: A pilot test and a field test.

The pilot test data will be used to examine the distribution of the items and to determine whether they behave in a manner consistent with the conceptual model that was developed as part of the project. The pilot test will also test data collection procedures prior to conducting a large-scale field test. Any problematic items or procedures identified by the pilot test will be corrected and revisions submitted to OMB before the field test.

The purpose of the field test is to obtain sufficient data on a diverse population to enable full psychometric testing of the measures and compare subgroups to ensure that the measure can be used in diverse ECE settings.

Respondents: In both the pilot and the field tests, the respondents will include directors of center-based child care programs, home-based child care programs, Early Head Start programs, and Head Start programs; center-based and home-based child care providers and ECE teachers; and parents whose children are enrolled in these diverse types of ECE settings.
