affected entities may include, but are
not limited to:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

This listing is not intended to be

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this
information to EPA through
[regulations.gov](http://www.regulations.gov) or email. Clearly mark
the part or all of the information that
you claim to be CBI. For CBI
information in a disk or CD-ROM that
you mail to EPA, mark the outside of the
disk or CD-ROM as CBI and then
identify electronically within the disk or
CD-ROM the specific information that
is claimed as CBI. In addition to one
complete version of the comment that
includes information claimed as CBI, a
copy of the comment that does not
contain the information claimed as CBI
must be submitted for inclusion in the
public docket. Information so marked
will not be disclosed except in
accordance with procedures set forth in
40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.
- v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- vi. Provide specific examples to illustrate your concerns and suggest alternatives.
- vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
- viii. Make sure to submit your comments by the comment period deadline identified.

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

II. What action is the agency taking?

EPA is announcing its receipt of several pesticide petitions filed under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, requesting the establishment or modification of regulations in 40 CFR part 174 or part 180 for residues of pesticide chemicals in or on various food commodities. The Agency is taking public comment on the requests before responding to the petitioners. EPA is not proposing any particular action at this time. EPA has determined that the pesticide petitions described in this document contain the data or information prescribed in FFDCA section 408(d)(2); however, EPA has not

fully evaluated the sufficiency of the submitted data at this time or whether the data support granting of the pesticide petitions. After considering the public comments, EPA intends to evaluate whether and what action may be warranted. Additional data may be needed before EPA can make a final determination on these pesticide petitions.

Pursuant to 40 CFR 180.7(f), a summary of each of the petitions that are the subject of this document, prepared by the petitioner, is included in a docket EPA has created for each rulemaking. The docket for each of the petitions is available online at <http://www.regulations.gov>.

As specified in FFDCA section 408(d)(3), (21 U.S.C. 346a(d)(3)), EPA is publishing notice of the petition so that the public has an opportunity to comment on this request for the establishment or modification of regulations for residues of pesticides in or on food commodities. Further information on the petition may be obtained through the petition summary referenced in this unit.

New Tolerance Exemptions

1. *PP 1E7900*. (EPA-HQ-OPP-2012-0131). ISK Biosciences Corporation, 7470 Auburn Road, Suite A, Concord, OH 44077, requests to establish an exemption from the requirement of a tolerance for residues of calcium gluconate (CAS No. 299-28-5) under 40 CFR 180.920 when used as a pesticide inert ingredient as a sequestrant, binder and filler in pesticide formulations applied pre-harvest to all raw agricultural. The petitioner believes no analytical method is needed based on the fact that this information is not required for the establishment of a tolerance exemption. Contact: Roger Chesser, (703) 347-8516, email address: chesser.roger@epa.gov.

2. *PP 1E7933*. (EPA-HQ-OPP-2012-0207). Ecolab, Inc., 370 N. Wabasha Street, St. Paul, MN 55102, requests to establish an exemption from the requirement of a tolerance for residues of aluminum sulfate (CAS No. 10043-01-3) under 40 CFR 180.940(a) for use as an inert ingredient as a defoamer in

antimicrobial pesticide formulations applied to food-contact surfaces in public eating places, dairy-processing equipment, and food-processing equipment and utensils at 50 ppm. The petitioner believes no analytical method is needed because it is not required for the establishment of a tolerance exemption for inert ingredients. Contact: Janet Whitehurst, (703) 305-6129, email address: whitehurst.janet@epa.gov.

3. *PP 1E7949*. (EPA-HQ-OPP-2012-0106). DowAgroSciences, LLC., 9330 Zionsville Rd., Indianapolis, IN 46268, requests to establish an exemption from the requirement of a tolerance for residues of *N*-Alkyl (C₈-C₁₈) dimethylamidopropyl-amines (NADMAPA) where the alkyl group is linear and may be saturated and/or unsaturated under 40 CFR 180.920 when used as a pesticide inert ingredient in pesticide formulations with limits of up to 20% of a herbicide formulation. NADMAPA is a group of highly related materials that are all derived from the reaction of dimethylamidopropyl-amine (DMAPA) with linear C₈-C₁₈ fatty acids. The following materials are proposed as being covered by the NADMAPA descriptor: Amides, coco, *N*-[3-(dimethylamino) propyl] (CAS No. 68140-01-2); Amides, C₈-C₁₈ and C₁₈-unsatd., *N*-[3-(dimethylamino) propyl] (CAS No. 146987-98-6); *N*-[3-(dimethylamino)propyl]-C₁₂-C₁₈(even numbered)-alkylamide (CAS No. 1147459-12-8); dodecanamide, *N*-[3-(dimethylamino) propyl] (CAS No. 3179-80-4); tetradecanamide, *N*-[3-(dimethylamino)propyl] (CAS No. 45267-19-4); hexadecanamide, *N*-[3-(dimethylamino)propyl] (CAS No. 39669-97-1); octadecanamide, *N*-[3-(dimethylamino)propyl] (CAS No. 7651-02-7); 9-octadecenamide, *N*-[3-(dimethylamino)propyl]-, (9Z)- (CAS No. 109-28-4); decanamide, *N*-[3-(dimethylamino)propyl] (CAS No. 22890-11-5); and octanamide, *N*-[3-(dimethylamino)propyl] (CAS No. 22890-10-4). This petition is based on coconut fatty acid, dimethylamidopropylamide (Coco APDMA; CAS 68140-01-2; Amides, coco, *N*-[3-(dimethylamino)propyl]) as the representative test material for NADMAPA materials. Coco APDMA is a blend and the chain length of the R group varies based on the natural origin of the coconut oil. The dominant components of the R chain are C₁₂ and C₁₄ at 52.47 and 15.72%, respectively, but the chain length ranges from C₈ to C₁₈.
