

Commission. The Exchange has requested that the Commission waive the 30-day operative delay period after which a proposed rule change under Rule 19b-4(f)(6) becomes effective. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest because such waiver will afford Exchange members the benefit of the proposal—the prohibition of deceptive and other abusive telemarketing acts or practices—without unnecessary delay. Such waiver will also allow the Exchange to comply with the Commission's directive and implement uniform telemarketing rules across self-regulatory organizations, creating consistency among these rules for investors, as soon as possible. For these reasons, the Commission designates the proposed rule change as operative under upon filing.⁶⁵

At any time within 60 days of the filing of this proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
