SUPPLEMENTARY INFORMATION:**I. Abstract**

Pursuant to the Boulder Canyon
Project Act (Pub. L. 70–642, 45 Stat.
1057), all diversions of mainstream
Colorado River water must be in
accordance with a Colorado River water
entitlement. The Consolidated Decree of
the United States Supreme Court in
Arizona v. California, 547 U.S. 150
(2006) requires the Secretary of the
Interior to account for all diversions of
mainstream Colorado River water along
the lower Colorado River, including
water drawn from the mainstream by
underground pumping. To meet the
water entitlement and accounting
obligations, an inventory of wells and
river pumps is required along the lower
Colorado River, and the gathering of
specific information concerning these
wells.

II. Data

OMB Control Number: 1006–0014.
Title: Lower Colorado River Well
Inventory.

Form Number: Form LC–25.

Frequency: These data are collected
only once for each well or river-pump
owner or operator as long as changes in
water use, or other changes that would
impact contractual or administrative
requirements, are not made. A
respondent may request that the data for
their well or river pump be updated
after the initial inventory.

Respondents: Well and river-pump
owners and operators along the lower
Colorado River in Arizona, California,
and Nevada. Each well and river pump
owner or operator must be identified, as
well as the location of their diversion
and type of water use determined.

Estimated completion time: An
average of 20 minutes is required to
interview individual well and river-
pump owners or operators. Reclamation
will use the information collected
during these interviews to complete the
information collection form.

*Estimated total number of annual
responses:* 1,500.

Estimated total annual burden hours:
500 hours.

III. Request for Comments

Reclamation invites your comments
on:

(a) Whether the proposed collection of
information is necessary for the proper
performance of our functions, including
whether the information will have
practical use;
