

amended ("CWA"), 33 U.S.C. 1321(f), to recover damages for injuries to natural resources in the lower Ashtabula River and Harbor. The United States' complaint asserts claims against 18 separate parties, based on alleged releases or discharges of hazardous substances from numerous industrial facilities that operated in Ashtabula at various times since the 1940s. Concurrently with the filing of the United States' complaint, the State of Ohio also filed a complaint under CERCLA, the CWA, and other authorities, seeking to recover damages for injuries to resources in the lower Ashtabula River and Harbor. The State's complaint asserts claims against all of the parties named as defendants in the United States' complaint, as well as certain entities that are part of the federal government.

The proposed Consent Decree would resolve all claims assert in the complaints filed by the United States and the State of Ohio, as well as certain potential claims of the private party defendants against the United States. Under the terms of the proposed settlement, Settling Defendants and Settling Federal Agencies will collectively pay more than \$2.3 million to federal and state natural resource damages funds as reimbursement for natural resource damage assessment costs previously incurred by federal and state natural resource trustees in connection with the Ashtabula River site. In addition, Settling Defendants will implement a number of natural resource damage restoration projects in accordance with plans approved by federal and state natural resource trustees. Finally, the proposed settlement provides for Settling Defendants to pay a total of \$440,000 to the Trustees for future restoration activities, including costs that may be incurred by the Trustees in connection with restoration projects undertaken by the Settling Defendants.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and either emailed to pubcomment-ees.enrd@usdoj.gov or mailed to P.O. DATES: Key Dates: The closing date for receipt of applications is June 15, 2012.

Funding Opportunity Description

The U.S. Department of Labor (USDOL), Veterans' Employment and Training Service (VETS), announces a grant competition under the Veterans' Workforce Investment Program (VWIP) for Program Year (PY) 2012, as authorized under Section 168 of the Workforce Investment Act (WIA) of 1998. WIA section 168 amended the training programs made available to veterans (see 29 U.S.C. 2913). WIA section 168 authorizes the Department of Labor to make grants to meet the needs for workforce investment activities of veterans with service-connected disabilities, veterans who have significant barriers to employment, veterans who served on active duty in the armed forces during a war or in a campaign or expedition for which a campaign badge has been authorized, and recently separated veterans within 48 months of discharge (under conditions other than dishonorable). Veterans who received a "dishonorable" discharge are ineligible for VWIP services. Priority of service for veterans

in all Department of Labor funded training programs is established in 38 U.S.C. 4215.

- VWIP grants are intended to address three objectives: (a) To provide services to assist in reintegrating eligible veterans into meaningful employment within the labor force; and (b) to stimulate the development of effective service delivery systems that will address the complex employability problems facing eligible veterans; and (c) to increase the skills and competency level of veteran participants through longer-term training that results, whenever feasible, in industry-recognized credentials for jobs, occupations, and industries that are in demand within a targeted service area.
