DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2790–055]

Boott Hydropower, Inc.; Notice of Section 106 Consultation Meeting

On May 24, 2012, Federal Energy Regulatory Commission (Commission) staff will participate in a meeting with staff from the U.S. Department of the Interior, the National Park Service, the Massachusetts State Historic Preservation Officer, the Advisory Council on Historic Preservation, Boott Hydropower, Inc., and any other consulting parties for the section 106 process for the proposed license amendment application for the Lowell Hydroelectric Project (FERC No. 2790–055). Currently, the Commission is reviewing an amendment application for the project to replace the wooden flashboards with a pneumatic crest gate system on the Pawtucket Dam. The meeting will be limited to discussion of the issues involved in the section 106 consultation process and mitigation options for impacts to historic properties from installation of the pneumatic crest gate system, as required by the National Historic Preservation Act. Interested members of the public may attend and observe the meeting, but participation is limited to discussion of the section 106 consultation process. The meeting will begin at 1:00 p.m., EDT at the Countinghouse at the Boott Cotton Mills Museum, 115 John Street, Lowell, MA 01852. Interested parties wishing to attend should contact Shana High at (202) 502–8674 or by email at Shana.High@ferc.gov, or Heather Campbell at (202) 502–6182 or by email at Heather.Campbell@ferc.gov.

Nathaniel J. Davis, Sr.,
Deputy Secretary.

ENVIRONMENTAL PROTECTION AGENCY

Permitting Guidance for Oil and Gas Hydraulic Fracturing Activities Using Diesel Fuels—Draft: Underground Injection Control Program Guidance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Request for Comment on Draft Guidance Document.

SUMMARY: EPA is taking comment on a draft document that describes Underground Injection Control (UIC) Program guidance for permitting the underground injection of oil- and gas-related hydraulic fracturing (HF) using diesel fuels where the U.S. Environmental Protection Agency (EPA) is the permitting authority. The draft guidance includes EPA’s interpretation of the Safe Drinking Water Act (SDWA) and regulations regarding UIC permitting of oil and gas hydraulic fracturing operations using diesel fuels as a fracturing fluid or as a component of a fracturing fluid, specifically that they are subject to Class II UIC permitting requirements. EPA’s goal is to provide greater regulatory clarity and certainty to the industry, which will in turn improve compliance with the SDWA requirements and strengthen environmental protections consistent with existing law. The draft guidance will not impose any new requirements. See Supporting Information section.

DATES: EPA will consider comments received on or before July 9, 2012.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–HQ–OW–2011–1013 by one of the following methods:
• www.regulations.gov: Follow the on-line instructions for submitting comments.
• Email: OW-Docket@epa.gov.
• Hand Delivery: Office of Water (OW) Docket, EPA/DC, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. Such deliveries are only accepted during the Docket’s normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Instructions: Direct your comments to Docket ID No. EPA–HQ–OW–2011–
