n. Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission’s Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

All filings must (1) bear in all capital letters the title “PROTEST,” “MOTION TO INTERVENE,” “COMMENTS,” “REPLY COMMENTS,” “RECOMMENDATIONS,” “TERMS AND CONDITIONS,” or “FISHWAY PRESCRIPTIONS;” (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, recommendations, terms and conditions or prescriptions must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b) except to the extent that this notice establishes deadlines different from those in the regulation. Agencies may obtain copies of the application directly from the applicant. A copy of any protest or motion to intervene must be served upon each representative of the applicant specified in the particular application. A copy of all other filings in reference to this application must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b) and 385.2010.

o. Procedural Schedule:
The application will be processed according to the following Hydro Licensing Schedule. Revisions to the schedule may be made as appropriate.

p. Waiver of deadline to file competing applications filed pursuant to a notice of intent:

Any qualified applicant desiring to file a competing application must submit to the Commission, on or before the specified intervention deadline date, a competing development application or a notice of intent to file such an application. Section 4.36(b)(2) of the Commission’s regulations, which allows 120 days from the specified intervention deadline date for interested parties to file competing development applications in which timely notices of intent have been submitted, is hereby waived. Due to the expedited nature of the pilot project licensing procedures, the submission of a timely notice of intent will instead allow an interested person to file the competing development application no later than 30 days after the specified intervention deadline date. Applications for preliminary permits will not be accepted in response to this notice.

A notice of intent must specify the exact name, business address, and telephone number of the prospective applicant, and must include an unequivocal statement of intent to submit a development application. A notice of intent must be served on the applicant named in this public notice.

[Docket No. CP12–440–000]

Kinder Morgan Texas Pipeline LLC; Notice of Application

Take notice that on April 30, 2012, Kinder Morgan Texas Pipeline LLC (KMP), 500 Dallas Street, Suite 1000, Houston, Texas 77002, filed in the above referenced docket an application pursuant to section 3 of the Natural Gas Act (NGA) and Part 153.16(b) of the Commission’s regulations, requesting authorization to amend its existing NGA section 3 authorization and Presidential Permit to increase the authorized design capacity of its border facilities at the United States-Mexico International Boundary line near Salineno, in Starr County, Texas from approximately 375 MMcf per day to 425 MMcf per day. The proposed amendment would allow KMP to continue to provide Pemex-Gas Y Petroquimica Basica (Pemex) with increased gas supplies as Pemex finishes repairing a damaged pipeline in Mexico that has diminished its access to other natural gas supply sources and resulted in curtailments. KMP proposes no construction or modification to its previously approved facilities. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission’s Web site at http://www.ferc.gov using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208–3676 or TTY, (202) 502–8659.

Any questions concerning this application may be directed to Lee Baskin, Director, Regulatory, Kinder Morgan Texas Intrastate Pipeline Group, 500 Dallas Street, Suite 1000, Houston, TX 77002, by telephone at (713) 369–8810, by facsimile at (713) 495–4845, or by email at lee.baskin@kindermorgan.com or Melinda K. Wnn, Assistant General Counsel, Kinder Morgan Energy Partners, L.P., One Allen Center, 500 Dallas Street, Suite 1000, Houston, TX 77002, by telephone at (713) 369–8780, by facsimile at (303) 984–3737, or by email at Melinda_Winn@kindermorgan.com.

Pursuant to Section 157.9 of the Commission’s rules, 18 CFR 157.9, within 90 days of this Notice the
Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission’s public record (eLibrary) for this proceeding, or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff’s issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission’s public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all Federal authorizations within 90 days of the date of issuance of the Commission staff’s FEIS or EA.

There are two ways to become involved in the Commission’s review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission’s Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission’s rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protests.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission’s environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission’s environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission’s final order.

Motions to intervene, protests and comments may be filed electronically via the Internet in lieu of paper; see, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission’s Web site under the “e-Filing” link. The Commission strongly encourages electronic filings.

j. Deadline for filing comments, motions to intervene, and protests: June 4, 2012.

All documents may be filed electronically via the Internet. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission’s Web site at http://www.ferc.gov/docs-filing/efiling.asp. If unable to be filed electronically, documents may be paper-filed. To paper-file, an original and seven copies should be mailed to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at http://www.ferc.gov/docs-filing/ecomment.asp. You must include your name and contact information at the end of your comments. Please include the project number (P–11402–073) on any comments or motions filed.

k. Description of Application: The City of Crystal Falls requests a variance for the following: (1) The impoundment drawdown will begin on July 27, 2012, at a rate of 1.0 foot per day for the first four days from its summer elevation of 1333.98 feet. Once the impoundment is drawn down 4.0 feet, then the drawdown rate will switch to 1.5 feet per day until a 20 foot drawdown is reached. (2) Once drawdown is complete the city will revert back to run-of-river where the outflow will match the inflow. (3) The impoundment will be filled as the inflow allows, while maintaining 150 cubic feet per second outflow. This shall occur as soon as possible but no later than November 1, 2012. (4) The scheduled water quality study will be conducted in July and August of 2013 rather than in 2012. (5) The barrier net will be lifted when the generators are no longer generating while the impoundment is in the drawdown state. During the drawdown the City will conduct surveys for stranded mussels and fish. Additionally, recreational access will be limited to canoes, kayaks, and small boats during the drawdown.
