

Settlement Part where the issues are particularly complex even if specific dollar thresholds are not met? Should the Chief ALJ be able to adjust the dollar thresholds for cases eligible for mandatory settlement part processes based upon the Review Commission's case load?

7. Should cases be permitted to remain in mandatory settlement part proceedings for more than 18 months without the approval of the Chief ALJ?

8. Should the parties be allowed to elect to not participate in a mandatory settlement part proceeding and, instead, request that the case proceed directly to a hearing on the merits?

The Review Commission welcomes any other comments or suggestions regarding Settlement Part.

Dated: May 1, 2012.

Debra Hall,

Acting Executive Director.

SUPPLEMENTARY INFORMATION: Section 169A of the Clean Air Act (CAA) establishes as a national goal the "prevention of any future, and the remedying of any existing, impairment of visibility in mandatory Class I Federal areas which impairment results from manmade air pollution." Hawaii has two Class I areas: Hawaii Volcanoes National Park on the Big Island and Haleakala National Park on Maui.

Regional haze is visibility impairment caused by the cumulative air pollutant emissions from numerous sources over a wide geographic area. EPA's proposed Regional Haze Federal Implementation Plan (FIP) for Hawaii will address the requirements of the CAA and EPA's regulations regarding regional haze. The proposed rule, "State of Hawaii; Regional Haze Federal Implementation Plan", will be available by May 16, 2012 on the following Web site: <http://www.epa.gov/region9/air/actions/hawaii.html> and will subsequently be published in the **Federal Register**.

The proposed rule and information on which the proposed rule relies will also be available in the docket for this action. Generally, documents in the docket for this action will be available electronically at www.regulations.gov and in hard copy at EPA Region IX, 75 Hawthorne Street San Francisco, California. While all documents in the docket are listed at www.regulations.gov, some information may be publicly available only at the hard copy location (e.g., copyrighted material, large maps), and some may not be publicly available in either location (e.g., CBI). answer questions on our proposed action and this supplemental proposed rule. Any comments made to EPA staff during the open houses must still be provided formally in writing or orally during a public hearing in order to be considered in the record.

The public hearings will provide the public with an opportunity to present data, views, or arguments concerning the proposed Regional Haze FIP for Hawaii. EPA may ask clarifying questions during the oral presentations, but will not respond to the presentations at that time. Written statements and supporting information submitted during the comment period will be considered with the same weight as any oral comments and supporting information presented at the public hearing. Please consult the proposed rule for guidance on how to submit written comments to EPA.

At the public hearing, the hearing officer may limit the time available for each commenter to address the proposal to five minutes or less if the hearing officer determines it is appropriate.
