Justification

HRSA is extending funding for the ECCS grants by one year for the following reasons. MCHB has been working with leaders within HRSA involved in early childhood service systems, as well as with other early childhood experts and leaders in the field, to align its early childhood systems-building activities with early childhood investments within HRSA, including the MIECHV program, and with other Federal Government early childhood initiatives. HRSA/MCHB is focusing on the most efficient and effective use of funds to continue promoting coordinated, comprehensive early childhood systems and services for the Nation's children and families.

HRSA's MIECHV program funds evidence-based home visiting programs in 54 States and jurisdictions. Research shows that the success of such home visiting programs is dependent upon the kind of sound infrastructure that ECCS promotes and sustains. To ensure coordinated and non-duplicative HRSA program planning, as well as future early childhood systems programming, it is crucial to sustain MCHB's current systems development efforts under ECCS for one additional year while the next early childhood systems program is developed with input from stakeholders.
