ENVIROMENTAL PROTECTION AGENCY

40 CFR Part 52
Approval and Promulgation of Air Quality Implementation Plans; West Virginia; Ohio; Determination of Clean Data for the 2006 24-Hour Fine Particulate Standard for the Steubenville-Weirton Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is making a final determination regarding the two-state Steubenville-Weirton, Ohio-West Virginia nonattainment area (hereafter referred to as the “Steubenville-Weirton Area” or “Area”) for the 2006 24-hour fine particulate matter (PM2.5) National Ambient Air Quality Standard (NAAQS). EPA is determining that the Steubenville-Weirton Area has attained the 24-hour 2006 PM2.5 NAAQS. This determination is based upon complete, quality assured, and certified ambient air monitoring data showing that this area has monitored attainment of the 24-hour 2006 PM2.5 NAAQS based on data from 2008–2010. EPA’s determination suspends the obligation of Ohio and West Virginia to submit, with respect to this area, attainment demonstrations, associated reasonably available control measures (RACM), reasonable further progress plans, contingency measures, and other planning State Implementation Plans (SIPs) related to attainment of the 2006 PM2.5 standard for so long as the Area continues to meet the 24-hour 2006 PM2.5 NAAQS.

DATES: Effective Date: This final rule is effective on June 13, 2012.

ADDRESSES: EPA has established a docket for this action under Docket ID Number EPA–R03–OAR–2011–0556. All documents in the docket are listed in the www.regulations.gov Web site. Although listed in the electronic docket, some information is not publicly available, i.e., confidential business information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy for public inspection during normal business hours at the Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103.

FOR FURTHER INFORMATION CONTACT: In Region III, Asrah Khadr, Office of Air Program Planning, Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, PA 19103–2023. The telephone number is (215) 814–2071. Ms. Khadr can also be reached via electronic mail at khadr.asrah@epa.gov. In Region V, Carolyn Persoon, Air Planning and Maintenance Section, Air Programs Branch (AR–18J), Environmental Protection Agency, Region V, 77 West Jackson Boulevard, Chicago, Illinois 60604–3507. Ms. Persoon’s telephone number is (312) 353–8290. Ms. Persoon can also be reached via electronic mail at persoon.carolyn@epa.gov.

SUPPLEMENTARY INFORMATION:
I. What action is EPA taking?
II. What is the effect of this action?
III. Summary of Public Comment and EPA Response
IV. Statutory and Executive Order Reviews

I. What action is EPA taking?

EPA is making a final determination that the Steubenville-Weirton Area has attained the 24-hour 2006 PM2.5 NAAQS. This determination is based upon complete, quality assured, and certified ambient air monitoring data showing that this area has monitored attainment of the 2006 PM2.5 NAAQS based on data from 2008–2010. On October 4, 2011 (76 FR 61291), EPA proposed its determination of attainment for the Steubenville-Weirton Area. A discussion of the rationale behind this determination and the effect of the determination were included in the notice of proposed rulemaking (NPR). One adverse comment was submitted in response to EPA’s October 4, 2011 NPR (76 FR 61291). A summary of the comment and EPA’s response is provided in section III of this document.

II. What is the effect of this action?

Under the provisions of EPA’s PM2.5 implementation rule (40 CFR 51.1004(c)), the requirements for the States of Ohio and West Virginia to submit, for the Steubenville-Weirton Area, an attainment demonstration and associated RACM (including reasonably available control technology (RACT)), a reasonable further progress plan, contingency measures, and any other planning SIPs related to attainment of the 2006 PM2.5 NAAQS are suspended for so long as the Area continues to meet the 24-hour 2006 PM2.5 NAAQS. If EPA subsequently determines that this Area violates the 24-hour 2006 PM2.5 NAAQS, the basis for the suspension of the specific requirements, set forth at 40 CFR 51.1004(c), would no longer exist and this area would thereafter have to address the pertinent requirements. This action, does not constitute a redesignation of the Steubenville-Weirton Area to attainment of the 24-hour 2006 PM2.5 NAAQS under section 107(d)(3) of the Clean Air Act (CAA).

Further, this action does not involve approving maintenance plans for the Area as required under section 175A of the CAA, nor does it find that the Area has met all other requirements for redesignation. Even after a determination of attainment by EPA, the designation status of the Steubenville-Weirton Area remains nonattainment for the 24-hour 2006 PM2.5 NAAQS until such time as EPA determines that the Area meets the CAA requirements for redesignation to attainment and takes action to redesignate the Steubenville-Weirton Area.

III. Summary of Public Comment and EPA Response

Comment: An Ohio resident expressed concern for the air quality in the Steubenville-Weirton Area. The resident perceives the air quality to be poor and thus questioned how this Area should be subject to more stringent standards.

Response: Since 2006, the States of Ohio and West Virginia, as well as the Federal government, have implemented various measures that have resulted in cleaner air in the Steubenville-Weirton Area, including, the nitrogen oxides (NOx) SIP Call which addressed pollutants that can result in acid rain; mobile source engine standards leading to a decrease in NOx and direct PM2.5 fuel standards decreasing sulfur dioxide (SO2); as well as rules affecting SO2 and...
NO\textsubscript{X} from power plants. These and other measures have resulted in a decrease in monitored PM\textsubscript{2.5} concentrations in the Steubenville-Weirton Area. Questions regarding the stringency of existing air standards are not relevant to this determination. The sole concern of this determination is whether the Area has attained the 2006 PM\textsubscript{2.5} 24-hour standard. Since 2008, based on complete, quality assured and certified data, this Area has monitored attainment of that standard, set by EPA to protect human health and the environment. The Area continues to attain the standard. At this time, therefore, no additional attainment planning or measures related to attainment of the 2006 PM\textsubscript{2.5} 24-hour standard are needed. In the future, should EPA determine that a violation of the standard occurs, the States of Ohio and West Virginia will then be required to submit an attainment demonstration, associated RACM, a reasonable further progress plan, contingency measures, and other planning SIPs related to attainment of the standard.

IV. Statutory and Executive Order Reviews

A. General Requirements

This action merely makes an attainment determination based on air quality data and does not impose any additional requirements. For that reason, this action:

\begin{itemize}
  \item Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
  \item Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
  \item Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
  \item Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
  \item Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
  \item Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
  \item Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
  \item Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
  \item Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).
\end{itemize}

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

B. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 et seq., as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the Federal Register. A major rule cannot take effect until 60 days after it is published in the Federal Register. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

C. Petitions for Judicial Review

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by July 13, 2012. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This clean data determination for the 24-hour 2006 PM\textsubscript{2.5} NAAQS for the Steubenville-Weirton Area may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

40 CFR Part 180

Acetone; Exemption From the Requirement of a Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes an exemption from the requirement of a tolerance for residues of acetone (67–64–1) when used as an inert ingredient as a solvent or co-solvent, 40 CFR 180.930, in pesticides products applied to animals. Whitmire Micro-Gen (now affiliated with BASF Corp.; 3568 Tree Court Industrial Blvd., St. Louis, MO 63112) submitted a petition to EPA under the Federal Food, Drug, and Cosmetic Act (FFDCA), requesting establishment of an exemption from the requirement of a tolerance. This regulation eliminates the need to establish a maximum permissible level for residues of acetone.

DATES: This regulation is effective May 14, 2012. Objections and requests for hearings must be received on or before July 13, 2012, and must be filed in accordance with the instructions provided in 40 CFR part 178 (see also Unit I.C. of the SUPPLEMENTARY INFORMATION).

ADDRESSES: EPA has established a docket for this action under docket identification (ID) number EPA–HQ–OPP–2008–0039. All documents in the docket are listed in the docket index available at http://www.regulations.gov. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available in the electronic docket at http://www.regulations.gov, or, if only available in hard copy, at the OPP Regulatory Public Docket in Rm. S–4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. The Docket Facility is open from 8:30 a.m. to 4 p.m., Monday through Friday.

C. How can I file an objection or hearing request?

D. How can I file an objection or hearing request?

Under FFDCA section 408(g), 21 U.S.C. 346a, any person may file an objection to any aspect of this regulation and may also request a hearing on those objections. You must file your objection or request a hearing on this regulation in accordance with the instructions provided in 40 CFR part 178. To ensure proper receipt by EPA, you must identify docket ID number EPA–HQ–OPP–2008–0039 in the subject line on the first page of your submission. All objections and requests for a hearing must be in writing, and must be received by the Hearing Clerk on or before July 13, 2012. Addresses for mail and hand delivery of objections and hearing requests are provided in 40 CFR 178.25(b).

In addition to filing an objection or hearing request with the Hearing Clerk as described in 40 CFR part 178, please submit a copy of the filing that does not contain any CBI for inclusion in the public docket. Information not marked confidential pursuant to 40 CFR part 2 may be disclosed publicly by EPA without prior notice. Submit a copy of your non-CBI objection or hearing request, identified by docket ID number EPA–HQ–OPP–2008–0039, by one of the following methods:

• Federal eRulemaking Portal: http://www.regulations.gov. Follow the online instructions for submitting comments.
• Delivery: OPP Regulatory Public Docket (7502P), Environmental Protection Agency, Rm. S–4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. Deliveries are only accepted during the Docket Facility’s normal hours of operation (8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays). Special arrangements should be made for deliveries of boxed information. The Docket Facility telephone number is (703) 305–5805.

II. Petition for Exemption

In the Federal Register of February 6, 2008 (73 FR 6966) (FRL–8350–9), EPA issued a notice pursuant to FFDCA section 408, 21 U.S.C. 346a, announcing the filing of a pesticide petition (PP 7E7239) by Whitmire Micro-Gen (now affiliated with BASF Corp.; 3568 Tree Court Industrial Blvd., St. Louis, MO 63112). The petition requested that 40 CFR 180.930 be amended by establishing an exemption from the requirement of a tolerance for residues of acetone (Cas Reg. No. 67–64–1) when used as an inert ingredient as a solvent or co-solvent in pesticide formulations applied to animals. That notice referenced a summary of the petition prepared by Whitmire Micro-Gen (now affiliated with BASF Corp.; 3568 Tree Court Industrial Blvd., St. Louis, MO 63112), the petitioner, which is available in the docket, http://
