

Estimated Number of Respondents: 10.

Frequency of Response: Initially, occasionally, and semiannually.

Estimated Total Annual Hour Burden: 3,718.

Estimated Total Annual Cost: \$554,916, which includes \$424,571 in labor costs, no capital/startup costs, and \$130,345 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is an increase in costs in the most recently approved ICR. The increase in burden cost is due to adjustments in labor rates. This ICR uses updated labor rates from the Bureau of Labor Statistics to calculate burden costs.

There is a decrease of 286 labor hours for the respondents related to typographical error in the previous ICR. There is no change in the estimation methodology for labor hours to the respondents. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for respondents is very low, negative, or non-existent.

There is an increase in O&M costs to the respondents as compared to the previous ICR. The O&M costs were updated based on comments received during consultation with the affected entities, and the increase reflects the costs associated with the maintenance and calibration of emission controls and monitors.

Title: NESHP for Asbestos (Renewal)

ICR Numbers: EPA ICR Number 0111.13, OMB Control Number 2060-0101.

ICR Status: This ICR is scheduled to expire on June 30, 2012. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The affected entities are subject to the General Provisions of the NESHP at 40 CFR part 61, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 61, subpart M.

Owners or operators of the affected facilities must submit initial notification, performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average two hours per response. "Burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously-applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of

information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of demolition and renovation of facilities; the disposal of asbestos waste; asbestos milling, manufacturing and fabricating; the use of asbestos on roadways; asbestos waste conversion facilities; and the use of asbestos insulation and sprayed-on materials.

Estimated Number of Respondents: 9,517.

Frequency of Response: Initially, occasionally, and semiannually.

Estimated Total Annual Hour Burden: 226,407.

Estimated Total Annual Cost: \$21,694,083, which includes \$21,694,083 in labor costs exclusively; there are neither capital/startup nor operation and maintenance (O&M) costs.

Changes in the Estimates: There is an adjustment decrease in the total estimated labor hours from the most recently approved ICR. The decrease is due to a mathematical correction in the previously approved ICR, which overestimated the burden for the respondents. However, there is an overall increase in labor costs to the respondents due to an increase in labor rates.

There is an increase in Agency hours and costs from the most recently approved ICR. The increase is due to a growth in the respondent universe in the past three years, and labor rate increases. This ICR uses updated labor rates for each of the three labor categories when estimating burden costs.

Director, Collection Strategies Division.

FEDERAL COMMUNICATIONS COMMISSION

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: The Federal Communications Commission (FCC), as part of its continuing effort to reduce paperwork burdens, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as

required by the Paperwork Reduction Act (PRA) of 1995. Comments are requested concerning whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before July 13, 2012. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to the Federal Communications Commission via email to PRA@fcc.gov and Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0010.

Title: Ownership Report for Commercial Broadcast Stations, FCC Form 323.

Form Number: FCC Form 323.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for profit entities; not-for-profit institutions; State, Local or Tribal Governments.

Number of Respondents/Responses: 9,250 respondents; 9,250 responses.

Estimated Time per Response: 2.5 hours to 4.5 hours.

Frequency of Response: Recordkeeping requirement; on occasion reporting requirement; biennially reporting requirement.

Total Annual Burden: 38,125 hours.

Total Annual Costs: \$26,940,000.

Nature of Response: Required to obtain or retain benefits. Statutory authority for this collection of

information is contained in Sections 154(i), 303, 310 and 533 of the Communications Act of 1934, as amended.

Nature and Extent of Confidentiality: Form 323 collects two types of information from respondents: personal information in the form of names, addresses, job titles and demographic information; and FCC Registration Numbers (FRNs).

The FCC is in the process of publishing a system of records notice (SORN), FCC/MB-1, "Ownership Report for Commercial Broadcast Stations," to cover the collection, purposes(s), storage, safeguards, and disposal of the PII that individual respondents may submit on FCC Form 323. FCC Form 323 will include a privacy statement to inform applicants (respondents) of the Commission's need to obtain the information and the protections that the FCC has in place to protect the PII. This privacy statement will be finalized and included with the form instructions after the Commission has published the SORN for the collection.

FRNs are assigned to applicants who complete FCC Form 160 (OMB Control No. 3060-0917). Form 160 requires applicants for FRNs to provide their Taxpayer Information Number (TIN) and/or Social Security Number (SSN). The FCC's electronic CORES Registration System then provides each registrant with a FCC Registration Number (FRN), which identifies the registrant in his/her subsequent dealings with the FCC. This is done to protect the individual's privacy. The Commission maintains a SORN, FCC/OMB-9, "Commission Registration System (CORES)" to cover the collection, purpose(s), storage, safeguards, and disposal of the PII that individual respondents may submit on FCC Form 160. FCC Form 160 includes a privacy statement to inform applicants (respondents) of the Commission's need to obtain the information and the protections that the FCC has in place to protect the PII.

Privacy Act Impact Assessment: The FCC is in the process of publishing a system of records notice (SORN), FCC/MB-1, "Ownership Report for Commercial Broadcast Stations," to cover the collection, purposes(s), storage, safeguards, and disposal of the PII that individual respondents may submit on FCC Form 323. The FCC will publish the SORN in the **Federal Register**. Going forward, if the FCC makes substantive changes to Form 323 after its SORN is published, the Commission will conduct a full Privacy Impact Assessment of FCC/MB-1 SORN, publish a Notice in the **Federal**
