DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR–5609–N–04]

Notice of Proposed Information Collection for Public Comment on the Study of Public Housing Agencies' Engagement With Homeless Households—Follow-up Sample Survey

AGENCY: Office of Policy Development and Research, HUD.

ACTION: Notice of proposed information collection.

SUMMARY: The proposed information collection requirement described below will be submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3506(c)(2)(A)). The Department is soliciting public comments on the subject proposal.

DATES: *Comments Due Date:* July 13, 2012.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB Control Number and should be sent to: Reports Liaison Officer, Office of Policy Development and Research, Department of Housing and Urban Development, 451 7th Street SW., Room 8234, Washington, DC 20410.

FOR FURTHER INFORMATION CONTACT: Anne Fletcher at (202) 402–4347 (this is

not a toll-free number). Copies of the proposed forms and other available documents submitted to OMB may be obtained from Ms. Fletcher.

SUPPLEMENTARY INFORMATION: The Department will submit the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35, as amended).

This Notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) enhance the quality, utility, and clarity of the information to be collected; and (4) minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology that will reduce burden, (e.g., permitting electronic submission of responses).

This Notice also lists the following information:

Title of Proposal: Study of Public Housing Agencies' Engagement with Homeless Households—Follow-up Sample Survey.

OMB Control Number: XXXX-pending.

Description of the need for the information and proposed use: This information collection will support research that will explore and document how public housing agencies (PHAs) currently serve and interact with homeless households, to achieve the following: (1) Establish a baseline level of PHAs' current engagement in serving homeless households, (2) document the practices of PHAs that have an explicit preference for homeless households; (3) explore PHA perceptions of barriers to, or concerns about, increasing the number of homeless households served or targeting homeless households for priority housing assistance; and (4) identify mechanisms to address or eliminate barriers to serving homeless households in mainstream housing assistance, with a focus on the housing choice voucher (HCV) program and public housing. Findings of this study will enable the U.S. Department of Housing and Urban Development (HUD), which funds PHAs, to develop strategies to expand access to mainstream housing opportunities for

homeless households that are rooted in evidence and informed by the PHAs themselves. This proposed data collection consists of a telephone survey

to be administered to a purposeful sample of 125 public housing agencies.

Members of affected public: Public housing agencies.

Estimation of the total number of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response:

ESTIMATED RESPONDENT BURDEN HOURS AND COSTS

Form	Respondent sample	Number of respondents	Average time to complete (minimum, maximum) in minutes	Frequency	Total burden (hours)
Telephone Survey	A purposeful sample of public housing agencies.	125	60	1	125
Total Burden Hours	125

Respondent's Obligation: Voluntary. *Status of the proposed information collection:* Pending OMB approval.

Authority: Title 13 U.S.C. Section 9(a), and Title 12, U.S.C., Section 1701z-1 *et seq.*

Dated: May 2, 2012.

Erika C. Poethig,

Deputy Assistant Secretary for Policy Development.

SUPPLEMENTARY INFORMATION:

Title: Legacy Data Verification Process (LDVP)—NTL (formerly known as Historical Well Data Cleanup).

OMB Control Number: 1014-0009.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior (Secretary) to prescribe rules and regulations necessary for the administration of the leasing provisions of the Act related to the mineral resources on the OCS. Such rules and regulations will apply to all operations conducted under a lease. Operations on the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition.

The OCSLA at 43 U.S.C. 1332(6) states that "operations in the [O]uter Continental Shelf should be conducted in a safe manner by well-trained

personnel using technology, precautions, and techniques sufficient to prevent or minimize the likelihood of blowouts, loss of well control, fires, spillages, physical obstruction to other users of the waters or subsoil and seabed, or other occurrences which may cause damage to the environment or to property, or endanger life or health."

BSEE's Legacy Data Verification Process (LDVP) requests operators to supply missing data or corrected data for wells drilled prior to January 2000 that do not have an assigned API number. This notice announces our intention to request a 3-year extension for this information collection.

The information we collect under this NTL, is missing data for wellbores that BSEE has not assigned API numbers and other well data discovered as missing while completing the well database cleanup. We are not able to manage and utilize data from drilling operations accurately without the information for the missing wells. We will use the information to identify other well data (e.g., logs, surveys, tests) missing from our records, geologically map existing BSEE data to the correct wellbore/location, and correctly exchange information with the operators and industry. Our geoscientists can use the information to evaluate resources for lease sales for fair market value. With respect to safety concerns, we believe that there may be anywhere from 1,500 to 4,500 unidentified completed and abandoned wellbores (bypasses and sidetracks), some of which may contain stuck drill pipe or other materials. In approving permits and other operations in an area, it is important for us to know what may be adjacent to or near the vicinity of the activity we are approving to minimize the risk of blowouts, loss of well control, and endangerment to life, health, and the environment. This is particularly important as, over the years, the number of wells drilled constantly
