

the training. Specifically, the new cooperative agreements require the grantees to emphasize and strengthen four training areas that preliminary cross-site evaluation findings indicate require improvement: (1) Adoption law, (2) non-directive counseling, (3) adolescent development and the impact on adoption decision making, and (4) adoption types and practices. The cooperative agreements also require the grantees to increase and maximize penetration of the training within the target population of eligible health care centers.

As in the previous grant period, each grantee is required to participate in the national cross-site evaluation of the extent to which the IAATP training objectives are met. The Infant Adoption Awareness Training Program Trainee Survey is the primary outcome data collection instrument for the national

cross-site evaluation. Respondents complete the survey prior to receiving the training and approximately 90 days after the training, which provides an assessment of the extent to which trainees demonstrate sustained gains in their knowledge about adoption, and the impact of the training on their subsequent work with pregnant women. Extension of the pretest and follow-up data collection instruments beyond the December 31, 2012 expiration date is necessary in order to complete a cross-site evaluation of the extent to which the IAATP grantees fulfill the key objectives of the new grant period (as stated above). The data collection instruments will also continue to be utilized to determine whether the grantees achieve the core objectives of the IAATP, which include enhancing adoption knowledge within the target population; providing adoption

information on an equal basis with all other options; and increasing awareness of community resources for adoption.

Pretest and follow-up versions of the survey require approximately 15 and 10 minutes, respectively, to complete. The estimated response time for the follow-up survey includes time for respondents to access the Web-based survey and complete the survey online. Respondents will not need to implement a recordkeeping system or compile source data in order to complete the survey. Where possible, fields in the follow-up version of the survey are pre-filled with static data from the respondent's pretest (e.g., demographics, agency type) in order to further expedite completion of the survey and minimize respondent burden.

Respondents: Infant Adoption Awareness Program Trainees.

ANNUAL BURDEN ESTIMATES

Number of instrument	Average burden	Number of respondents	Responses per respondent	Hours per response
IAATP: Trainee Survey Pretest Administration	870	1	0.25	217.5
IAATP: Trainee Survey Follow-Up Administration	870	1	0.17	147.9

Estimated Total Annual Burden Hours: 365.

National Institutes of Health

Proposed Collection; Comment Request; Hazardous Waste Worker Training

AGENCY: National Institute of Environmental Health Sciences, Division of Extramural Research and Training, NIH, HHS.

SUMMARY: In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, for opportunity for public comment on proposed data collection projects, the National Institute of Environmental Health Sciences (NIEHS), the National Institutes of Health (NIH) will publish periodic summaries of proposed projects to be submitted to the Office of Management and Budget (OMB) for review and approval.

Proposed Collection: Title: Hazardous Waste Worker Training—42 CFR part 65. *Type of Information Collection Request:* Extension of OMB No. 0925–0348 and expiration date September 30, 2012. *Need and Use of Information Collection:* This request for OMB review and approval of the information collection is required by regulation 42 CFR part 65(a)(6). The National Institute of Environmental Health Sciences (NIEHS) was given major responsibility for initiating a worker safety and health training program under Section 126 of the Superfund Amendments and Reauthorization Act of 1986 (SARA) for hazardous waste workers and emergency responders. A network of non-profit organizations that are committed to protecting workers and their communities by delivering high-quality, peer-reviewed safety and health curricula to target populations of hazardous waste workers and emergency responders has been developed. In twenty-four years (FY 1987–2011), the NIEHS Worker Training program has successfully supported 20 primary grantees that have trained more than 2.7 million workers across the country and presented over 160,913 classroom and hands-on training courses, which have accounted for nearly 36 million contact hours of actual training. Generally, the grant will initially be for one year, and subsequent continuation awards are also for one year at a time. Grantees must submit a separate application to have the support continued for each subsequent year. Grantees are to provide information in accordance with S65.4(a), (b), (c) and 65.6(a) on the nature, duration, and purpose of the training, selection

criteria for trainees' qualifications and competency of the project director and staff, cooperative agreements in the case of joint applications, the adequacy of training plans and resources, including budget and curriculum, and response to meeting training criteria in OSHA's Hazardous Waste Operations and Emergency Response Regulations (29 CFR 1910.120). As a cooperative agreement, there are additional requirements for the progress report section of the application. Grantees are to provide their information in hard copy as well as enter information into the WETP Grantee Data Management System. The information collected is used by the Director through officers, employees, experts, and consultants to evaluate applications based on technical merit to determine whether to make awards. *Frequency of Response:* Biannual. *Affected Public:* Non-profit organizations. *Type of Respondents:* Grantees. The annual reporting burden is as follows: *Estimated Number of Respondents:* 20; *Estimated Number of Responses per Respondent:* 2; *Average Burden Hours per Response:* 14; and *Estimated Total Annual Burden Hours Requested:* 560. The annualized cost to respondents is estimated at: \$18,200. There are no Capital Costs, Operating Costs and/or Maintenance Costs to report.

Request for Comments: Written comments and/or suggestions from the public and affected agencies should address one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact: Joseph T. Hughes, Jr., Director, Worker Education and Training Branch, Division of Extramural Research and Training, NIEHS, P.O. Box 12233, Research Triangle Park, NC 27709 or call non-toll-free number (919)
