SUPPLEMENTARY INFORMATION:
Community policing is a philosophy that promotes organizational strategies, which support the systematic use of partnerships and problem-solving techniques to proactively address the immediate conditions that give rise to public safety issues such as crime, social disorder, and fear of crime.

COPS advances the practice of community policing in America’s state, local, and tribal law enforcement agencies through information-sharing and grant-making. The knowledge resource products available from COPS provide essential information in the form of best practices for law enforcement, problem-oriented policing guides addressing crime-related problems, and publications composed by subject-matter experts on topics ranging from bullying in schools to computer mapping.

The COPS Online Ordering System facilitates the distribution of free COPS knowledge resource products and updates (e.g., publications, best practices guides, etc.) on a wide range of community policing topics, and it authorizes system users to effectively search, integrate, display, maintain and record information in support of the COPS’s community policing mission.

In accordance with 5 U.S.C. 552a(f), the Department has provided a report to OMB and to Congress on this system of records.
