SUPPLEMENTARY INFORMATION:

Background

The Commercial Motor Vehicle Safety Act of 1986 (CMVSA) (49 U.S.C. 31301 *et seq.*) established the commercial driver's license (CDL) program and directed the Federal Highway Administration (FHWA), FMCSA's predecessor agency, to establish minimum qualifications for issuance of a CDL. After public notice and an opportunity for comment, the FHWA established standards for the knowledge and skills which a CDL applicant must satisfy.

In 1985, the FHWA published "Model Curriculum for Training Tractor-Trailer Drivers." The FHWA did not mandate driver training at that time. It believed the cost of developing a comprehensive driver-training program was too high in terms of agency resources. This was especially so, FHWA believed, in light of its reasonable expectation that the level of safety of entry level drivers would soon be elevated because (1) the deadline for States to adopt the new mandatory CDL-licensing standards for driver knowledge and skills was still in the future, and (2) many truck driving schools had updated their curricula in light of the new model curriculum ("Truck Safety: Information on Driver Training," Report of the U.S. General Accounting Office, GAO/RCED-89-163, August 1989, pages 4 and 5).

In 1991, the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) (Pub. L. 102-240, December 18, 1991) directed the FHWA to "commence a rulemaking proceeding on the need to require training of all entry-level drivers of commercial motor vehicles (CMVs)" (Section 4007(a)(2)). On June 21, 1993, the FHWA issued an advance notice of proposed rulemaking entitled, "Commercial Motor Vehicles: Training for All Entry Level Drivers" (58 FR 33874). The Agency also began a study of the effectiveness of the driver training currently being received by entry-level CMV drivers. The results of the study were published in 1997 under the title "Adequacy of Commercial Motor Vehicle Driver Training." The study is available under FMCSA Docket 1997-2199 at the *Federal eRulemaking Portal* (www.regulations.gov) described above. The study found that three segments of the trucking industry were not receiving adequate entry-level training: heavy truck, motor coach, and school bus.

On August 15, 2003, FMCSA published a notice of proposed

rulemaking (NPRM) entitled, "Minimum Training Requirements for Entry-Level Commercial Motor Vehicle Operators" (68 FR 48863). The Agency proposed mandatory training for operators of CMVs on four topics: driver qualifications, hours-of-service of drivers, driver wellness and whistle-blower protection. The Agency believed that knowledge of these areas would provide the greatest benefit to the safety of CMV operations. On May 21, 2004, FMCSA by final rule prohibited a motor carrier from allowing an entry-level driver to operate a CMV until it received a written certificate indicating that the driver had received training in the four subject areas (69 FR 2004). The rule became effective on July 20, 2004. Training providers were required to provide a certificate to each driver trainee receiving the requisite training.

In 2005, the U.S. Court of Appeals for the District of Columbia Circuit held that FMCSA had failed to consider important aspects of an adequate entry-level training program. It remanded the 2004 driver-training rule to the Agency for further consideration. On December 26, 2007, FMCSA proposed revised minimum standards for the mandatory training of entry-level CDL drivers (72 FR 73226). The Agency has analyzed the public comments received in response to the notice, and is continuing to develop a final rule on this subject.

Title: Training Certification for Entry-Level Commercial Motor Vehicle Operators

OMB Control Number: 2126-0028.

Type of Request: Extension of a currently approved ICR.

Respondents: Entry-level CDL drivers.

Estimated Number of Respondents: 397,500.

Estimated Time per Response: 10 minutes.

Expiration Date: November 30, 2012.

Frequency of Response: On occasion.

Estimated Total Annual Burden: 66,250 hours. FMCSA estimates that an entry-level driver requires approximately 10 minutes to complete the tasks necessary to comply with the regulation. Those tasks are: photocopying the training certificate, giving the photocopy to the motor carrier employer, and placing the original of the certificate in a personal file. Therefore, the annual burden for all entry-level drivers is 66,250 hours [397,500 drivers x 10/60 minutes to respond = 66,250 hours].

Definitions: (1) "Federal Motor Carrier Safety Regulations" (FMCSRs) are parts 350-399 of volume 49 of the Code of Federal Regulations. (2) "Commercial motor vehicle" (CMV) means a motor vehicle or combination of motor

vehicles used in commerce to transport passengers or property if the motor vehicle—(a) has a gross combination weight rating of 11,794 kilograms or more (26,001 pounds or more) inclusive of a towed unit(s) with a gross vehicle weight rating (GVWR) of more than 4,536 kilograms (10,000 pounds); or (b) has a GVWR of 11,794 or more kilograms (26,001 pounds or more); or (c) is designed to transport 16 or more passengers, including the driver; or (d) is of any size and is used in the transportation of hazardous materials as defined in 49 CFR § 383.5 (49 CFR 383.5). The definition of CMV found at 49 CFR 390.5 of the FMCSRs is not applicable to this notice. (3)

"Commercial Driver's License (CDL) Driver" means the operator of a CMV because such operators must possess a valid commercial driver's license (CDL) (Section 383.23(a)(2)). (4) "Entry-level CDL Driver" means a driver with less than one year of experience operating a CMV with a CDL (49 CFR 380.502(b)).

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FMCSA's performance of functions; (2) the accuracy of the estimated burden; (3) ways for the FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize or include your comments in the request for OMB's clearance of this information collection.

Issued on: May 10, 2012.

G. Kelly Leone,

Associate Administrator for Research and Information Technology.

Background

On March 27, 2012, FMCSA published a notice of receipt of Federal diabetes exemption applications from 16 individuals and requested comments from the public (77 FR 18302). The public comment period closed on April 26, 2012, and no comments were received.

FMCSA has evaluated the eligibility of the 16 applicants and determined that granting the exemptions to these individuals would achieve a level of safety equivalent to or greater than the level that would be achieved by complying with the current regulation 49 CFR 391.41(b)(3).

Diabetes Mellitus and Driving Experience of the Applicants
