**Title:** Foreign Purchaser Acknowledgement Statement of Unregistered Pesticides.

**ICR numbers:** EPA ICR No. 0161.12, OMB Control No. 2070-0027.

**ICR Status:** This is a request to renew an existing approved collection. This ICR is scheduled to expire on July 31, 2012. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

**Abstract:** This information collection program is designed to enable the Environmental Protection Agency (EPA) to provide notice to foreign purchasers of unregistered pesticides exported from the United States that the pesticide product cannot be sold in the United States. Section 17(a)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) requires an exporter of any pesticide not registered under FIFRA section 3 or sold under FIFRA section 6(a)(1) to obtain a signed statement from the foreign purchaser acknowledging that the purchaser is aware that the pesticide is not registered for use in, and cannot be sold in, the United States. A copy of this statement, which is known as the Foreign Purchaser Acknowledgement Statement, or FPAS,

must be transmitted to an appropriate official of the government in the importing country. This information is submitted in the form of annual or per-shipment statements to the EPA, which maintains original records and transmits copies, along with an explanatory letter, to appropriate government officials of the countries which are importing the pesticide.

In addition to the export notification for unregistered pesticides, FIFRA requires that all exported pesticides include appropriate labeling. Export labeling requirements meet the definition of third-party notification. In the interests of consolidating various related information collection requests, this ICR includes burden estimates for the FPAS requirement for unregistered pesticides, as well as the labeling requirement for all exported pesticides, both registered and unregistered. These burdens have been consolidated in this information collection since the implementation of the 1993 pesticide export policy governing the export of pesticides, devices, and active ingredients used in producing pesticides.

Responses to the collection of information are mandatory (see 40 CFR 168, subpart D). An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average from one to eight hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of

information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

*Respondents/Affected Entities:*

Entities potentially affected by this ICR are individuals or entities that either manufacture and export or that reformulate or repackage and export unregistered pesticides. The North American Industrial Classification System (NAICS) code assigned to the parties responding to this information is 325300.

*Estimated Number of Respondents:*

50.

*Frequency of Response:* On occasion.

*Estimated Total Annual Hour Burden:* 24,470.

*Estimated Total Annual Cost:*

\$1,461,658, includes \$0 annualized capital or O&M costs.

*Changes in the Estimates:* There is a decrease of 22 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease reflects EPA's updating of burden estimates for this collection based upon historical information on the number of foreign purchaser acknowledgement statements submitted annually. Based upon revised estimates, the average number of foreign purchaser acknowledgement statements submitted annually has decreased from 2,304 to 2,283, with a corresponding

decrease in the associated burden from 2,442 hours in the previous renewal to 2,420 hours in the current renewal. This change is an adjustment.

**ACTION:** Notice of Intent to Grant Co-Exclusive Patent License.

**SUMMARY:** Pursuant to 35 U.S.C. 207 (Patents) and 37 CFR part 404 (U.S. Government patent licensing regulations), EPA hereby gives notice of its intent to grant a co-exclusive, royalty-bearing, revocable license to practice the inventions described and claimed in the U.S. patents and patent applications listed at the end of this message, and all corresponding patents issued throughout the world, and all reexamined patents and reissued patents granted in connection with such patent applications, to American Hydraulic Power, LLC of Michigan.

The inventions pertain to hybrid vehicle technology, particularly hydraulic hybrid drive systems, methods, and components. The proposed license will contain appropriate terms, limitations, and conditions negotiated in accordance with 35 U.S.C. 209 and 37 CFR 404.5 and 404.7 of the U.S. Government patent licensing regulations. EPA will finalize terms and conditions and grant the license unless, within 15 days from the date of this notice, EPA receives, at the address below, written objections to the grant, together with supporting documentation. The documentation from objecting parties having an interest in practicing the inventions listed in the patents and patent applications below should include an application for a nonexclusive license with the information set forth in 37 CFR 404.8. The EPA Patent Attorney and other EPA officials will review all written responses and then make recommendations on a final decision to the Director or Deputy Director of the Office of Transportation and Air Quality, who have been delegated the authority to issue patent licenses under EPA Delegation 1-55.

The proposed license will apply to the following patents and patent applications:
