Administration for Children and Families

Announcement of the Award of Single Source Expansion Supplement Grants to 11 Personal Responsibility Education Program Innovative Strategies (PREIS) Grantees

AGENCY: Family and Youth Services Bureau, ACYF, ACF, HHS.

ACTION: Notice of the award of single source expansion supplement grants to 11 Personal Responsibility Education Program Innovative Strategies (PREIS) grantees to support the expansion of program services necessary to meet the requirements for reporting performance measures and conducting evaluation-related activities.

CFDA Number: 93.297.

Statutory Authority: Section 2953 of the Patient Protection and Affordable Care Act of 2010 (ACA), Public Law 111-148, which adds a new Section 513 to Title V of the Social Security Act, codified at 42 U.S.C. 713, authorizing the Personal Responsibility Education Program.

SUMMARY: The Administration on Children, Youth and Families (ACYF), Family and Youth Services Bureau (FYSB), Division of Adolescent

Development and Support (DADS) announces the award of single source expansion supplement grants to 11 PREIS grantees for the purpose of expanding program participation and/or sites to support the increase of data necessary to determine the level of program effectiveness. In FY 2010, FYSB awarded thirteen cooperative agreement grants under Funding Opportunity Announcement (FOA) number: OPHS/OAH/TPP PREP Tier 2-2010. Under this FOA a total of \$9.7 million was made available on a competitive basis to implement and test innovative strategies.

The award of 11 single source expansion supplement grants to PREIS grantees is required because of the necessary expansion of the original scope of approved activities. In the provision of evaluation related technical assistance to grantees during the first year of the project, it was determined by FYSB that all grantees needed to increase the number of program participants and/or sites for program implementation. Increased funding will help the grantee programs obtain the minimal statistical power required to report significant outcome data that can be utilized to determine the effectiveness of the implemented pregnancy prevention models. Thus, the

increased number of program participants supports the evaluation requirements outlined in the FOA and by ACA.

Additionally, grantees are required to report on performance measures that were specifically defined by FYSB and are pending approval by the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. 3501-3520). The data collection will require additional staff time and other resources to compile and report on performance indicators. Performance indicators are based upon the performance measures established by HHS, to include: (a) The number of youth served and hours of service delivery; (b) fidelity to the program model or adaptation of the program model for the target population; (c) community partnerships and competence in working with the target population; (d) reported gains in knowledge and intentions and changes in self-reported behaviors of participants; and (e) community data, like birth rates and the incidence of sexually transmitted infections.

The 11 single source expansion supplement grants will support activities from September 30, 2011 through September 29, 2012. The grantees are:

Food and Drug Administration

[Docket No. FDA-2012-N-0471]

Agency Information Collection Activities: Proposed Collection; Comment Request; User Fee Cover Sheet; Form FDA 3397

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing an opportunity for public comment on the proposed collection of certain

information by the Agency. Under the Paperwork Reduction Act of 1995 (the PRA), Federal Agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, and to allow 60 days for public comment in response to the notice. This notice solicits comments on Form FDA 3397, User Fee Cover Sheet, which must be submitted along with certain drug and biologic product applications and supplements.

DATES: Submit either electronic or written comments on the collection of information by July 17, 2012.

ADDRESSES: Submit electronic comments on the collection of information to <http://www.regulations.gov>. Submit written comments on the collection of information to the Division of Dockets Management (HFA-305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852. All comments should be identified with the docket number found in brackets in the heading of this document.

FOR FURTHER INFORMATION CONTACT: Ila S. Mizrachi, Office of Information Management, Food and Drug Administration, 1350 Piccard Dr., PI50-400B, Rockville, MD 20850, 301-796-7726, Ila.Mizrachi@fda.hhs.gov.

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501-3520), Federal Agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. "Collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes Agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal Agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, FDA is publishing notice of the proposed collection of information set forth in this document.

With respect to the following collection of information, FDA invites comment on these topics: (1) Whether the proposed collection of information is necessary for the proper performance

of FDA's functions, including whether the information will have practical utility; (2) the accuracy of FDA's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques, when appropriate, and other forms of information technology.

User Fee Cover Sheet; Form FDA 3397—(OMB Control Number 0910-0297)—Extension

Under sections 735 and 736 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 379g and 379h), as amended, FDA has the authority to assess and collect user fees for certain drug and biologics license applications and supplements. Under this authority, pharmaceutical companies pay a fee for certain new human drug applications, biologics license applications, or supplements submitted to the Agency for review. Because the submission of user fees concurrently with applications and supplements is required, review of an application by FDA cannot begin until the fee is submitted. Form FDA 3397, the user fee cover sheet, is designed to provide the minimum necessary information to determine whether a fee is required for review of an application, to determine the amount of the fee required, and to account for and track user fees. The form provides a cross-reference of the fee submitted for an application by using a unique number tracking system. The information collected is used by FDA's Center for Drug Evaluation and Research

(CDER) and Center for Biologics Evaluation and Research (CBER) to initiate the administrative screening of new drug applications, biologics license applications, and supplemental applications.

Respondents to this collection of information are new drug and biologics manufacturers. Based on FDA's database system for fiscal year (FY) 2011, there are an estimated 260 manufacturers of products subject to the Prescription Drug User Fee Act (Public Law 105-115). The total number of annual responses is based on the number of submissions received by FDA in FY 2011. CDER received 3,363 annual responses that include the following submissions: 114 new drug applications; 4 biologics license applications; 1,900 manufacturing supplements; 1,209 labeling supplements; and 136 efficacy supplements. CBER received 768 annual responses that include the following submissions: 6 biologics license applications; 698 manufacturing supplements; 44 labeling supplements; and 20 efficacy supplements. The estimated hours per response are based on past FDA experience with the various submissions.

FDA is revising Form FDA 3397 in the following ways: (1) By updating the applicable Web sites; (2) adding a Privacy Act Notice pursuant to the Privacy Act of 1974, 5 U.S.C. 552a(3)j; (3) by adding 351(k) applications to the CDER and CBER lists of applications and supplements for which Form FDA 3397 need not be submitted; (4) by adding "or proper name" to instruction number 3; and (5) by making minor editorial changes.

FDA estimates the burden of this collection of information as follows:

TABLE 1—ESTIMATED ANNUAL REPORTING BURDEN¹

FDA Form No.	Number of respondents	Number of responses per respondent	Total annual responses	Average burden per response	Total hours
Form FDA 3397	260	15.89	4,131	² 0.5	2,065.5

¹ There are no capital costs or operating and maintenance costs associated with this collection of information.

² 30 minutes.

Dated: May 14, 2012.

Leslie Kux,

Assistant Commissioner for Policy.
