BILLING CODE 4910–13–P
Boulevard, U.S. 41/STH 341 (Stadium Interchange), 35th Street and 26th Street/Saint Paul Avenue as well as U.S. 41 at Wisconsin Avenue/Wells Street. The EIS will be developed in accordance with 23 U.S.C. 139, 23 CFR 771, and 40 CFR 1500–1508.

Public involvement is a critical component of the National Environmental Policy Act (NEPA) project development process and will occur throughout the development of the EIS. The EIS will be made available for review by federal and state resource agencies and the public. Specific efforts to encourage involvement by, and solicit comments from, minority and low-income populations in the project study area will be made. A series of public information meetings will be held during the project study. Public notice will be given as to the time and place of all workshops and public information meetings. In addition, a public hearing will be held after the completion of the Draft EIS. Inquiries related to the 1–94 East-West Corridor Study can be sent to DOT/94EastWest@dot.wi.gov, and a public Web site will be maintained throughout the study for public comment and information at http://www.seefreeways.org. To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments and questions concerning the proposed action and the EIS should be directed to the FHWA address provided above.

Projects receiving Federal funds must comply with Title VI of the Civil Rights Act and Executive Order 12372 and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program.)

Issued on: May 10, 2012.
Bethany Bacher-Gresock, Environmental Major Projects Manager, Federal Highway Administration, Madison Wisconsin.

DEPARTMENT OF TRANSPORTATION
National Highway Traffic Safety Administration
[Docket No. NHTSA–2012–0059]
Agency Information Collection Activity Under OMB Review: Automotive Fuel Economy Reports

AGENCY: National Highway Traffic Safety Administration (NHTSA). Department of Transportation (DOT).

ACTION: Notice and request for comments.

SUMMARY: The Department of Transportation (DOT) invites public comments about our intention to request the Office of Management and Budget (OMB) approval for a renewal of an information collection. The collection involves vehicle manufacturers submitting reports to the Secretary of Transportation on whether a manufacturer will comply with an applicable average fuel economy standard for the model year for which the report is made, the actions a manufacturer has taken or intends to take to comply with the standard and other information the Secretary requires by regulation. The information to be collected will be used to and/or is necessary because of the requirements of 49 U.S.C. 32902. We are required to publish this notice in the Federal Register by the Paperwork Reduction Act of 1995, Public Law 104–13.

DATES: Written comments should be submitted by July 17, 2012.

ADDRESSES: You may submit comments [identified by Docket No. NHTSA–2012–0059] through one of the following methods:

• Federal eRulemaking Portal: http://www.regulations.gov. Follow the online instructions for submitting comments.
• Fax: (202) 493–2251.
• Mail or Hand Delivery: Docket Management Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE., West Building, Room W12–140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except on Federal holidays.

SUPPLEMENTARY INFORMATION:
OMB Control Number: 2127–0019.
Title: 49 CFR part 537, Automotive Fuel Economy Reports.
Type of Review: Renewal of a previously approved information collection.

Background: 49 United States Code (U.S.C.) 32907(a) requires a manufacturer to submit reports to the Secretary of Transportation on whether a manufacturer will comply with an applicable average fuel economy standard under 49 U.S.C. 32902 of this title for the model year for which the report is made, the actions a manufacturer has taken or intends to take to comply with the standard and other information the Secretary requires by regulation. Under 49 CFR part 537, NHTSA also requires manufacturers to provide data on vehicle footprint so that the agency can determine a manufacturer’s required fuel economy level and its compliance with that level. The information collected provides NHTSA with advance indication whether automotive manufacturers are complying with the applicable average fuel economy standards, furnishes NHTSA with the necessary information to prepare its annual update on the Automotive Fuel Economy Program, aids NHTSA in responding to general requests concerning automotive fuel economy and supplies NHTSA with detailed and current technical and economic information that will be used to evaluate possible future average fuel economy standards.

Respondents: Automobile manufacturers.

Estimated Number of Respondents: 30.

Estimated Number of Responses: 54; some manufacturers have multiple fleets and 49 CFR part 537 requires a separate report for each fleet.

Estimated Total Annual Burden: Thirty automotive manufacturers must comply with 49 CFR 537. For each current model year, each manufacturer is required to submit semi-annual reports: A pre-model year report and a mid-model year report. The pre-model year report must be submitted during the month of December, and the mid-model year report must be submitted during the month of July. The total number of responses submitted by automotive manufacturers is 54. We currently have a clearance based on
