

June 29, 2012, to provide feedback on the stakeholder assessment and recommended options for establishing the U.S. multi-stakeholder group. During the May 18–June 29 public comment period, three public listening sessions, a public webinar, and a public workshop will be held as listed previously in this notice. Details on participating in the webinar will be available from Ben Nussdorf and online at www.doi.gov/EITI.

Background: In September 2011, President Barack Obama announced the United States' commitment to participate in the Extractive Industries Transparency Initiative. EITI is a signature initiative of the U.S. National Action Plan for the international Open Government Partnership and offers a voluntary framework for governments and companies to publicly disclose in parallel the revenues paid and received for extraction of oil, gas and minerals owned by the state. The design of each framework is country-specific, and is developed through a multi-year, consensus based process by a multi-stakeholder group comprised of government, industry and civil society representatives. On October 25, President Obama named Secretary of the Interior Ken Salazar as the U.S. Senior Official responsible for implementing USEITI. In response, Secretary Salazar posted a White House blog the same day, committing to work with industry and civil society to implement USEITI. For further information on EITI, please visit the USEITI Web page at <http://www.doi.gov/EITI>.

Dated: May 16, 2012.

Acting Assistant Secretary, Policy, Management and Budget.

Records pertaining to the application can be examined in the BLM Alaska State Office at the address shown above. The land was previously segregated by Public Land Order No. 6893 on October 18, 1991, (56 FR 52210 (1991)) which subsequently expired October 17, 2011.

The withdrawal application would not alter the applicability of those public land laws governing the use of land under lease, license, or permit or governing the disposal of the mineral or vegetative resources other than under the mining laws.

The use of a right-of-way or interagency or cooperative agreement would not adequately protect the Federal interest in the King Salmon Air Force Station.

There are no suitable alternative sites available that could be substituted for the above described public land, since the King Salmon Air Force Station is unique.

No water rights would be needed to fulfill the purpose of the requested withdrawal application.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the withdrawal application may present their views in writing to the BLM Alaska State Director at the address indicated above. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the withdrawal application. All interested parties who desire a public meeting for the purpose of being heard on the withdrawal application must submit a written request to the BLM Alaska State Director within 90 days from the date of publication of this notice. Upon determination by the authorized officer that a public meeting will be held, a notice of the time and place will be published in the **Federal Register** and at least one local newspaper at least 30 days before the scheduled date of the meeting.

The withdrawal application will be processed in accordance with the regulations set forth at 43 CFR part 2300 and is subject to Section 810 of the Alaska National Interest Lands Conservation Act, (16 U.S.C. 3120).

Authority: 43 CFR 2310.3–1(b).
