Bureau of Ocean Energy Management

[Docket No. BOEM-2012-0009]

Commercial Renewable Energy Transmission on the Outer Continental Shelf (OCS) Offshore Rhode Island, Notice of Proposed Grant Area and Request for Competitive Interest (RFCI) in the Area of the Deepwater Wind Block Island Transmission System Proposal

AGENCY: Bureau of Ocean Energy Management, Department of the Interior.

ACTION: Public Notice of an Unsolicited Request for a Transmission Cable Right-of-Way Grant Supporting Renewable Energy, Request for Submission of Indications of Competitive Interest, and Request for Public Comment.

SUMMARY: The purpose of this public notice is to: (1) Describe the Deepwater Wind Block Island LLC (Deepwater Wind) Transmission System (BITS) proposal submitted to the Bureau of Ocean Energy Management (BOEM); (2) solicit submissions of indications of competitive interest for a right-of-way (ROW) grant for renewable energy purposes for the area identified in this notice; and (3) solicit public input regarding the proposal, its potential environmental consequences, and other uses of the area in which the proposal would be located.

On November 30, 2011, BOEM received an application from Deepwater Wind for a ROW grant on the OCS offshore Rhode Island. Deepwater Wind's proposed project, the BITS, would entail the construction and installation of a bi-directional submerged transmission cable between Block Island and the Rhode Island mainland. Deepwater Wind has requested a ROW grant for the portion of the BITS cable that is proposed on the OCS. Deepwater Wind proposes that the BITS would serve two purposes: (1) Transmit electrical power from

Deepwater Wind's proposed 30 megawatt (MW) offshore wind energy project located in Rhode Island State waters off Block Island to the Rhode Island mainland; and (2) transmit electrical power from the existing transmission grid on the Rhode Island mainland to Block Island.

This RFCI is published pursuant to subsection 8(p)(3) of the OCS Lands Act, as amended by section 388 of the Energy Policy Act of 2005 (EPA) (43 U.S.C. 1337(p)(3)), and the implementing regulations at 30 CFR part 585.

Subsection 8(p)(3) of the OCS Lands Act requires that OCS renewable energy leases, easements, and rights-of-way be issued "on a competitive basis unless the Secretary determines after public notice of a lease, easement, or right-of-way that there is no competitive interest." This RFCI provides such public notice for the proposed ROW grant area requested by Deepwater Wind and invites the submission of indications of competitive interest. BOEM will consider the responses to this public notice to determine whether competitive interest exists for the area requested by Deepwater Wind, as required by 43 U.S.C. 1337(p)(3). Parties wishing to obtain a grant for the area requested by Deepwater Wind should submit detailed and specific information as described in the section entitled, "Required Indication of Interest Information." This announcement also requests that interested and affected parties comment and provide information about site conditions and existing and future uses of the area identified in this notice that would be relevant to the proposed project or its impacts. The information that BOEM is requesting is described in the section entitled, "Requested Information from Interested or Affected Parties."

DATES: If you are submitting an indication of interest in acquiring a ROW grant for the area requested by Deepwater Wind, your submission must be sent by mail, postmarked no later than June 22, 2012 for your submission to be considered. If you are providing comments or other submissions of information, you may send them by mail, postmarked by this same date, or you may submit them through the Federal Rulemaking Portal at <http://www.regulations.gov>, also by this same date.

Submission Procedures: If you are submitting an indication of competitive interest for a ROW grant, please submit it by mail to the following address: Bureau of Ocean Energy Management, Office of Renewable Energy Programs,

381 Elden Street, HM 1328, Herndon, Virginia 20170. Submissions must be postmarked by June 22, 2012 to be considered by BOEM for the purposes of determining competitive interest. In addition to a paper copy of your submission, include an electronic copy on a compact disc. BOEM will list the parties that submit indications of competitive interest in the area requested by Deepwater Wind on the BOEM Web site after the 30-day comment period has closed.

If you are submitting comments and other information concerning the proposed grant area, you may use either of the following two methods:

1. **Federal eRulemaking Portal:** <http://www.regulations.gov>. In the entry titled "Enter Keyword or ID," enter BOEM-2012-0009, and then click "search." Follow the instructions to submit public comments and view supporting and related materials available for this notice.

2. Alternatively, comments may be submitted by mail to the following address: Bureau of Ocean Energy Management, Office of Renewable Energy Programs, 381 Elden Street, HM 1328, Herndon, Virginia 20170.

If you wish to protect the confidentiality of your submissions or comments, clearly mark the relevant sections and request that BOEM treat them as confidential. Please label privileged or confidential information "Contains Confidential Information" and consider submitting such information as a separate attachment. Treatment of confidential information is addressed in the section of this notice entitled, "Privileged or Confidential Information." BOEM will post all comments on www.regulations.gov unless labeled as confidential. Information that is not labeled as privileged or confidential will be regarded by BOEM as suitable for public release.

FOR FURTHER INFORMATION CONTACT: Ms. Jessica Bradley, Project Coordinator, BOEM, Office of Renewable Energy Programs, 381 Elden Street, HM 1328, Herndon, Virginia 20170, (703) 787-1300.

SUPPLEMENTARY INFORMATION:

Purpose of the RFCI

Responses to this public notice will allow BOEM to determine, pursuant to 30 CFR 585.306, whether or not there is competitive interest in acquiring the ROW area requested by Deepwater Wind as described in this notice. In addition, this notice provides an opportunity for interested stakeholders to provide comments on the Deepwater
