Summary of Information Collection

This requirement provides for the collection of information related to providing Government property to contractors; contractor use and management of Government property; and reporting, redistribution, and disposal of contractor inventory.

a. DFARS 211.274, Item identification and valuation requirements, and the associated clause at DFARS 252.211-7007, require contractors to provide reliable accountability of property and asset visibility throughout the property life cycle by recording the property in the DoD Item Unique Identification (IUID) Registry. (This DoD IUID recording replaced the annual report for contracts involving Government property on DD Form 1662 in the 2009 information collection update.)

b. DFARS 245.302(1)(i) requires contractors to request and obtain contracting officer approval before using Government property on work for foreign governments and international organizations.

c. DFARS 245.604-3 concerns the sale of surplus Government property. Under paragraph (b), a contractor may be directed by the plant clearance officer to issue informal invitations for bid. Under paragraph (d), a contractor may be authorized by the plant clearance officer to purchase or retain Government property at less than cost if the plant clearance officer determines this method is essential for expeditious plant clearance. When using the latter method, the contractor must submit to the plant clearance officer the informal bids received and sufficient information to ensure that the Government's interests will be adequately protected.

d. DFARS subpart 245.70, Plant Clearance Forms, prescribes the requirements for the use of the following forms:

(1) *DD Form 1149*, Requisition and Invoice/Shipping Document (JUL 2006): Prescribed at DFARS 245.7001-2, the

form is completed by the contractor for transfer and donation of excess contractor inventory.

(2) *DD Form 1348-1A*, DoD Single Line Item Release/Receipt Document: Prescribed at DFARS 245.7001-3, the form is used when authorized by the plant clearance officer.

(3) *DD Form 1640*, Request for Plant Clearance (JUN 2003): Prescribed at DFARS 245.7001-4, the contractor completes this form to request plant clearance assistance or transfer plant clearance.

(4) *DD Form 1641*, Disposal Determination/Approval (APR 2000): Prescribed at DFARS 245.7001-5, this form is used to record rationale for the following disposal determinations:

(i) Downgrade useable property to scrap.

(ii) Abandonment or destruction.

(iii) Noncompetitive sale of surplus property.

(iv) Other disposal actions.

(5) *DD Form 1822*, End Use Certificate: Addressed at DFARS 245.7001-6, this form is prescribed by DoDI 5230.18, entitled "The DoD Foreign Disclosure and Technical Information System," and is used when directed by the plant clearance officer.

e. In addition, the following DD forms are prescribed in the clause at DFARS 252.245-7004, Reporting, Reutilization, and Disposal (AUG 2011):

(1) *DD Form 1637*, Notice of Acceptance of Inventory Schedules (JUN 2003): There is no information collection burden on contractors associated with this form. Government plant clearance officers use this form to indicate acceptance of the contractor's inventory schedules.

(2) *DD Form 1639*, Scrap Warranty: When scrap is sold by the contractor, after Government approval, the purchaser of the scrap material(s) may be required to certify, by signature on the DD Form 1639, that (i) the purchased material will be used only as scrap and (ii), if sold by the purchaser, the purchaser will obtain an identical warranty from the individual buying the scrap from the initial purchaser. The warranty contained in the DD Form 1639 expires by its terms five years from the date of the sale.

Abstract: Grants are made to Institutions of Higher Education that have entered into consortium arrangements with states or school districts. Funded projects are designed to increase the pool of highly-qualified teachers prepared to serve EL students and increase the skills of teachers already serving them.

The purpose of this study is to examine how a sample of grantees is implementing their grants with respect to four areas: (1) The content and structure of the education they provide to current and prospective teachers of English Learners; (2) the nature of changes they attempt to make to the full teacher education program at their institutions; (3) the efforts grantees make to institutionalize their projects so that they can be sustained after the grant ends; and (4) their efforts to track former program participants. Information gathered on these four topics will be used to identify issues that could be investigated in a larger, more representative study.

This study will consist of 15 purposively-selected current grantees and nine purposively-selected former grantees. The case study sites will be selected from among the grantees in the 2007 cohort ("current grantees") and those in the 2002 and 2004 cohorts ("former grantees"), and will provide information on some of the pre-service and in-service teacher training models and approaches that current grantees are using, as well as strategies that former grantees have used to track newly-minted teachers after program completion and to plan for continuing program services after the federal grant period.

The study will collect data from the current grantees through site visits and

from the former grantees through telephone interviews.

Proposed Agency Information Collection

AGENCY: Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy.

ACTION: Notice and Request for Comments.

SUMMARY: The Department of Energy (DOE) invites public comment on a proposed collection of information that DOE is developing for submission to the Office of Management and Budget (OMB) pursuant to the Paperwork Reduction Act of 1995. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Comments regarding this proposed information collection must be filed by July 23, 2012. If you anticipate difficulty in submitting comments within that period, contact the person listed in **ADDRESSES** as soon as possible.

ADDRESSES: Written comments may be sent to Jamie Vernon or by fax at 202-586-9260, or by email at Jamie.Vernon@ee.doe.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Jamie Vernon, Jamie.Vernon@ee.doe.gov.

SUPPLEMENTARY INFORMATION: This information collection request contains: (1) *OMB No.:* 1910-5164; (2) *Information Collection Request Title:* Customer Electricity Data Access and Control Questionnaire; (3) *Type of Request:* Renewal with changes; (4) *Purpose:* The U.S. Department of Energy (DOE) Office of Energy Efficiency and Renewable Energy (EERE) has developed and launched a new consumer-focused Web site (<http://openei.org/utilityaccess>) with the capability to map how and what electricity use data utilities provide to their customers. An online questionnaire device captures and publishes the necessary information as a series of web-based maps upon completion by electricity providers. Each electric utility has the opportunity to fill out a web-based questionnaire that will automatically generate the informational maps. Consumers can visit the maps and Web site to learn about data access offered by their utility and how to use energy more efficiently. Generation of such maps requires DOE to collect information from electricity providers about data access and sharing services offered to their customers. DOE is requesting a 3-year approval to continue to collect and report this information using an improved collection instrument; (5) *Annual Estimated Number of Total Responses:* 3,261; (6) *Annual Estimated Number of Burden Hours:* 761; (7) *Annual Estimated Reporting and Recordkeeping Cost Burden:* \$0.

Statutory Authority: Section 13(b) of the Federal Energy Administration Act of 1974 (FEA Act), as amended, codified at 15 U.S.C. 772(b) and Section 1301 of the Energy Independence and Security Act of 2007 (EISA), as amended, codified at 42 U.S.C. 17381.
