What information is EPA particularly interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

- (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (iii) enhance the quality, utility, and clarity of the information to be collected; and
- (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

In addition, EPA is requesting comments on some proposed changes to the Hazardous Waste Report form and instructions designed to clarify long-standing points of confusion. Some of these changes are scheduled for the 2011 booklet, some for the 2013 booklet. The proposed changes can be found in a draft Hazardous Waste Report Form and Instructions booklet in the docket for this notice.

What should I consider when I prepare my comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under **DATES**.

7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What information collection activity or ICR does this apply to?

Affected entities: Entities potentially affected by this action are business or other for-profit as well as State, Local, or Tribal governments.

Title: Hazardous Waste Report, Notification of Regulated Waste Activity, and Part A Hazardous Waste Permit Application and Modification

ICR numbers: EPA ICR No. 0976.14, OMB Control No. 2050-0024.

ICR status: This ICR is currently scheduled to expire on December 31, 2014. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The Hazardous Waste Report Instructions and Forms booklet is updated every two years, to comply with the statutory mandate that EPA conduct a survey of hazardous waste generation at least every two years. The report, known as the "Biennial Report," has been conducted since 1989, every odd-numbered year, known as the data collection year. The even-numbered years are known as the reporting years. The ICR has been renewed every data collection year, and the forms have been made available to respondents at the beginning of the reporting year. However, EPA is amending the current ICR this year so that the booklet for the next cycle, the 2013 cycle, will be available at the beginning of the data collection year. This change is in response to many requests by States.

The proposed changes to the 2013 booklet include: (1) Some management method codes will be consolidated in order to ease reporting, (2) the waste minimization codes will be revised in order to assist filers with reporting their waste minimization activities, and (3) editorial changes will be made to the description of some source codes in order to improve clarity for filers.

This amendment will not affect the Notification booklet or the Part A Permit Application booklet, which are both part of this ICR.

Burden Statement: The annual reporting burden for the Hazardous Waste Report is estimated to average 17 hours per respondent, and includes time for reviewing instructions, gathering data, completing and reviewing the forms, and submitting the report. The recordkeeping requirement is estimated to average 4 hours per response and includes the time for filing and storing the Hazardous Waste Report submission for three years.

The annual public reporting and recordkeeping burden for the Notification of Regulated Waste Activity is estimated to average 2 hours per response for the initial notification, and 1 hour per response for any subsequent notifications.

The annual public reporting and recordkeeping burden for the Part A Permit Application is estimated to average 25 hours per response for an initial application and 13 hours per response for a revised application.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 56,800.

Frequency of response: biennially, and on occasion.

Estimated total average number of responses for each respondent: varies.

Estimated total annual burden hours: 422,633 hours.

Estimated total annual costs: \$16,540,823. This includes an estimated burden cost of \$16,339,984 in annualized labor cost and \$200,839 for capital investment or maintenance and operational costs.

What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: May 10, 2012.

Suzanne Rudzinski,

Director, Office of Resource Conservation and Recovery.
