

SUPPLEMENTARY INFORMATION: Section 609 of Public Law 101–162 (“Section 609”) prohibits imports of certain categories of shrimp unless the President certifies to the Congress not later than May 1 of each year either: (1) That the harvesting nation has adopted a program governing the incidental capture of sea turtles in its commercial shrimp fishery comparable to the program in effect in the United States and has an incidental take rate comparable to that of the United States; or (2) that the fishing environment in the harvesting nation does not pose a threat of the incidental taking of sea turtles. The President has delegated the authority to make this certification to the Department of State (“the Department”). Revised State Department guidelines for making the required certifications were published in the **Federal Register** on July 2, 1999 (Vol. 64, No. 130, Public Notice 3086).

On April 30, 2012, the Department certified 13 nations on the basis that their sea turtle protection programs are comparable to that of the United States: Colombia, Costa Rica, Ecuador, El Salvador, Guatemala, Guyana, Honduras, Mexico, Nicaragua, Nigeria, Pakistan, Panama, and Suriname. Costa Rica is re-certified this year based on improvement in the implementation and enforcement of its turtle excluder device regulatory program in their commercial shrimp trawl fishery. The Department also certified 26 shrimp harvesting nations and one economy as having fishing environments that do not pose a danger to sea turtles. Sixteen nations have shrimping grounds only in cold waters where the risk of taking sea turtles is negligible. They are: Argentina, Belgium, Canada, Chile, Denmark, Finland, Germany, Iceland, Ireland, the Netherlands, New Zealand, Norway, Russia, Sweden, the United Kingdom, and Uruguay. Ten nations and one economy only harvest shrimp using small boats with crews of less than five that use manual rather than mechanical means to retrieve nets, or catch shrimp using other methods that do not threaten sea turtles. Use of such small-scale technology does not adversely affect sea turtles. The 10 nations and one economy are: the Bahamas, Belize, China, the Dominican Republic, Fiji, Hong Kong, Jamaica, Oman, Peru, Sri Lanka, and Venezuela.

The Department of State has communicated the certifications under Section 609 to the Office of Field Operations of U.S. Customs and Border Protection. All DS–2031 forms accompanying shrimp imports from uncertified nations must be originals

and signed by the competent domestic fisheries authority.

In order for shrimp harvested with turtle excluder devices (TEDs) in an uncertified nation to be eligible for importation into the United States under the DS–2031 section 7(A)(2) provision for “shrimp harvested by commercial shrimp trawl vessels using TEDs comparable in effectiveness to those required in the United States”, the Department of State must determine in advance that the government of the harvesting nation has put in place adequate procedures to ensure the accurate completion of the DS–2031 forms. At this time, the Department has made such a determination only with respect to Australia, Brazil and France. Thus, the importation of TED-caught shrimp from any other uncertified nation will not be allowed. For Brazil, only shrimp harvested in the northern shrimp fishery are eligible for entry under this provision. For Australia, shrimp harvested in the Exmouth Gulf Prawn Fishery, the Northern Prawn Fishery, the Queensland East Coast Trawl Fishery, and the Torres Strait Prawn Fishery are eligible for entry under this provision. For France, shrimp harvested in the French Guiana domestic trawl fishery are eligible for entry under this provision. An official of the competent domestic fisheries authority for the country where the shrimp were harvested must sign the DS–2031 form accompanying these imports into the United States.

In addition, the Department has determined that shrimp harvested in the Spencer Gulf region in Australia may be exported to the United States under the DS–2031 section 7(A)(4) provision for “shrimp harvested in a manner or under circumstances determined by the Department of State not to pose a threat of the incidental taking of sea turtles.” An official of the Government of Australia must certify the DS–2031 form accompanying these imports into the United States.

Dated: May 17, 2012.

David A. Balton,

Deputy Assistant Secretary of State for Oceans and Fisheries, Department of State.

Petition for Exemption

Docket No.: FAA-2003-14563.

Petitioner: AirTran Airways, Inc.

Section of 14 CFR Affected: 14 CFR 93.123.

Description of Relief Sought: AirTran Airways, Inc. (AirTran) requests an exemption from the slot limit for Ronald Reagan Washington National Airport (DCA) set forth in § 93.123(a). This exemption would permit AirTran to continue to operate three slots, which it

currently uses to facilitate service between DCA and Hartsfield-Jackson Atlanta International Airport, Milwaukee County's General Mitchell International Airport, and Southwest Florida International Airport.

On June 14, 2010, the FAA renewed AirTran's exemption until September 30, 2012. That grant of exemption stated the FAA would publish any future extension petitions to permit the public to comment on the continued public interest served by this exemption. Specifically, the FAA requests comments focus on three issues: (1) Whether the FAA should extend the exemption to AirTran for a period of at least 2 years; (2) whether the FAA should permit the exemption to retire according to its terms; and (3) whether the FAA should permit the exemption to retire and grant a similar exemption to another carrier following a lottery among interested new entrant or limited incumbent carriers as defined in 14 CFR 93.123. The FAA will review all comments received and may publish an additional notice.
